

## Datasheet for ABIN2931338 **anti-GOSR2 antibody**

[Go to Product page](#)

### Overview

|              |                                      |
|--------------|--------------------------------------|
| Quantity:    | 100 µL                               |
| Target:      | GOSR2                                |
| Reactivity:  | Human, Rat, Mouse                    |
| Host:        | Rabbit                               |
| Clonality:   | Polyclonal                           |
| Conjugate:   | This GOSR2 antibody is un-conjugated |
| Application: | Western Blotting (WB), ELISA         |

### Product Details

|               |                                 |
|---------------|---------------------------------|
| Immunogen:    | Human GOSR2.                    |
| Isotype:      | IgG                             |
| Purification: | Antigen Affinity Chromatography |

### Target Details

|                   |                                                                         |
|-------------------|-------------------------------------------------------------------------|
| Target:           | GOSR2                                                                   |
| Alternative Name: | Golgi Snap Receptor Complex Member 2 ( <a href="#">GOSR2 Products</a> ) |
| Gene ID:          | 9570                                                                    |
| UniProt:          | <a href="#">O14653</a>                                                  |
| Pathways:         | <a href="#">ER-Nucleus Signaling</a>                                    |

## Application Details

---

|                    |                                                                    |
|--------------------|--------------------------------------------------------------------|
| Application Notes: | Optimal working dilution should be determined by the investigator. |
|--------------------|--------------------------------------------------------------------|

|               |                       |
|---------------|-----------------------|
| Restrictions: | For Research Use only |
|---------------|-----------------------|

## Handling

---

|         |        |
|---------|--------|
| Format: | Liquid |
|---------|--------|

|         |                                                               |
|---------|---------------------------------------------------------------|
| Buffer: | PBS, pH 7.3, containing 0.1 % Sodium Azide and 50 % Glycerol. |
|---------|---------------------------------------------------------------|

|               |              |
|---------------|--------------|
| Preservative: | Sodium azide |
|---------------|--------------|

|                    |                                                                                                                        |
|--------------------|------------------------------------------------------------------------------------------------------------------------|
| Precaution of Use: | This product contains Sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only. |
|--------------------|------------------------------------------------------------------------------------------------------------------------|

|          |               |
|----------|---------------|
| Storage: | -20 °C,-80 °C |
|----------|---------------|

|                  |                                                                           |
|------------------|---------------------------------------------------------------------------|
| Storage Comment: | Aliquot and store at -20 °C or -80 °C. Avoid repeated freeze/thaw cycles. |
|------------------|---------------------------------------------------------------------------|
