Complement C4 ELISA Kit

Purnose [.]	Mouse Complement Component 4 FLISA Kit is an FLISA Kit against Complement Component
Product Details	
Application:	ELISA
Minimum Detection Limit:	1.56 ng/mL
Detection Range:	1.56 ng/mL - 100 ng/mL
Method Type:	Sandwich ELISA
Reactivity:	Mouse
Target:	Complement C4 (C4)
Quantity:	96 tests
Overview	

Purpose:	Mouse Complement Component 4 ELISA Kit is an ELISA Kit against Complement Component 4.
Sample Type:	Plasma, Serum
Analytical Method:	Quantitative
Detection Method:	Colorimetric
Sensitivity:	0.94 ng/mL

Target Details

Target:	Complement C4 (C4)
Alternative Name:	Complement Component 4 (C4 Products)
Pathways:	Complement System

Application Details

Application Notes:	Stability: The stability of the kit is determined by the rate of activity loss. The loss rate is less
	than 5 % within the expiration date under appropriate storage conditions. To minimize
	performance fluctuations, operation procedures and lab conditions should be strictly controlled.
	It is also strongly suggested that the whole assay is performed by the same user throughout.
	Recommended dilutions: Optimal dilutions/concentrations should be determined by the end
	user.
	Standard Form: Lyophilized
Plate:	Pre-coated
Restrictions:	For Research Use only
Handling	
Storage:	4 °C/-20 °C
Storage Comment:	Upon receipt, store the kit according to the storage instruction in the kit's manual.
Expiry Date:	6 months
