

Datasheet for ABIN2947136

AMFR ELISA Kit

Overview

Pathways:

Quantity:	96 tests
Target:	AMFR
Reactivity:	Human
Method Type:	Competition ELISA
Detection Range:	0.625 ng/mL - 40 ng/mL
Minimum Detection Limit:	0.625 ng/mL
Application:	ELISA
Product Details	
Purpose:	Human E3 ubiquitin-protein ligase AMFR ELISA Kit is an ELISA kit against Human E3 ubiquitin-protein ligase AMFR (AMFR).
Purpose: Sample Type:	
	protein ligase AMFR (AMFR).
Sample Type:	protein ligase AMFR (AMFR). Plasma, Serum
Sample Type: Analytical Method:	protein ligase AMFR (AMFR). Plasma, Serum Quantitative
Sample Type: Analytical Method: Detection Method:	protein ligase AMFR (AMFR). Plasma, Serum Quantitative
Sample Type: Analytical Method: Detection Method: Target Details	protein ligase AMFR (AMFR). Plasma, Serum Quantitative Colorimetric

ER-Nucleus Signaling

Application Details

Application Notes:	Stability: The stability of the kit is determined by the rate of activity loss. The loss rate is less
	than 5 % within the expiration date under appropriate storage conditions. To minimize
	performance fluctuations, operation procedures and lab conditions should be strictly controlled.
	It is also strongly suggested that the whole assay is performed by the same user throughout.
	Recommended dilutions: Optimal dilutions/concentrations should be determined by the end
	user.
Plate:	Pre-coated
Restrictions:	For Research Use only
Handling	
Storage:	4 °C/-20 °C
Storage Comment:	Upon receipt, store the kit according to the storage instruction in the kit's manual.
Expiry Date:	6 months
