

## Datasheet for ABIN2948107 **GNB3 ELISA Kit**

[Go to Product page](#)

### Overview

Quantity:	96 tests
Target:	GNB3
Reactivity:	Human
Method Type:	Sandwich ELISA
Detection Range:	0.78 ng/mL - 50 ng/mL
Minimum Detection Limit:	0.78 ng/mL
Application:	ELISA

### Product Details

Purpose:	Human Guanine nucleotide-binding protein G(I)/G(S)/G(T) subunit beta-3 ELISA Kit is an ELISA kit against Human Guanine nucleotide-binding protein G(I)/G(S)/G(T) subunit beta-3 (GNB3).
Sample Type:	Plasma, Serum
Analytical Method:	Quantitative
Detection Method:	Colorimetric

### Target Details

Target:	GNB3
Alternative Name:	Guanine Nucleotide-Binding Protein G(I)/G(S)/G(T) Subunit beta-3 ( <a href="#">GNB3 Products</a> )
Pathways:	<a href="#">Peptide Hormone Metabolism, Myometrial Relaxation and Contraction</a>

## Application Details

---

**Application Notes:**                      **Stability:** The stability of the kit is determined by the rate of activity loss. The loss rate is less than 5 % within the expiration date under appropriate storage conditions. To minimize performance fluctuations, operation procedures and lab conditions should be strictly controlled. It is also strongly suggested that the whole assay is performed by the same user throughout.

**Recommended dilutions:** Optimal dilutions/concentrations should be determined by the end user.

---

**Plate:**                                              Pre-coated

---

**Restrictions:**                                      For Research Use only

---

## Handling

---

**Storage:**                                              4 °C/-20 °C

---

**Storage Comment:**                                      Upon receipt, store the kit according to the storage instruction in the kit's manual.

---

**Expiry Date:**                                              6 months

---
