NFATC1 ELISA Kit

[Go to Product page](#)

Overview

Quantity:	96 tests
Target:	NFATC1
Reactivity:	Human
Method Type:	Sandwich ELISA
Detection Range:	0.156 ng/mL - 10 ng/mL
Minimum Detection Limit:	0.156 ng/mL
Application:	ELISA

Product Details

Purpose:	Human Nuclear factor of activated T-cells, cytoplasmic 1 ELISA Kit is an ELISA kit against Human Nuclear factor of activated T-cells, cytoplasmic 1 (NFATC1).
Sample Type:	Plasma, Serum
Analytical Method:	Quantitative
Detection Method:	Colorimetric
Characteristics:	Nuclear factor of activated T-cells, cytoplasmic 1

Target Details

Target:	NFATC1
Alternative Name:	Nuclear Factor of Activated T-Cells, Cytoplasmic 1 (NFATC1 Products)
Pathways:	RTK Signaling , WNT Signaling , Fc-epsilon Receptor Signaling Pathway

Application Details

Application Notes: Stability: The stability of the kit is determined by the rate of activity loss. The loss rate is less than 5 % within the expiration date under appropriate storage conditions. To minimize performance fluctuations, operation procedures and lab conditions should be strictly controlled. It is also strongly suggested that the whole assay is performed by the same user throughout. Recommended dilutions: Optimal dilutions/concentrations should be determined by the end user.

Plate: Pre-coated

Restrictions: For Research Use only

Handling

Storage: 4 °C/-20 °C

Storage Comment: Upon receipt, store the kit according to the storage instruction in the kit's manual.

Expiry Date: 6 months
