

## Datasheet for ABIN2951158 **ARHGDI A ELISA Kit**

[Go to Product page](#)

### Overview

Quantity:	96 tests
Target:	ARHGDI A
Reactivity:	Human
Method Type:	Sandwich ELISA
Detection Range:	0.156 ng/mL - 10 ng/mL
Minimum Detection Limit:	0.156 ng/mL
Application:	ELISA

### Product Details

Purpose:	Human Rho GDP Dissociation Inhibitor Alpha ELISA Kit is an ELISA Kit against Rho GDP Dissociation Inhibitor Alpha .
Sample Type:	Plasma, Serum
Analytical Method:	Quantitative
Detection Method:	Colorimetric
Sensitivity:	0.1 ng/mL

### Target Details

Target:	ARHGDI A
Alternative Name:	rho GDP Dissociation Inhibitor alpha ( <a href="#">ARHGDI A Products</a> )
Pathways:	<a href="#">Neurotrophin Signaling Pathway</a>

## Application Details

---

**Application Notes:**                      **Stability:** The stability of the kit is determined by the rate of activity loss. The loss rate is less than 5 % within the expiration date under appropriate storage conditions. To minimize performance fluctuations, operation procedures and lab conditions should be strictly controlled. It is also strongly suggested that the whole assay is performed by the same user throughout. **Recommended dilutions:** Optimal dilutions/concentrations should be determined by the end user.  
**Standard Form:** Lyophilized

---

**Plate:**                                              Pre-coated

---

**Restrictions:**                                      For Research Use only

---

## Handling

---

**Storage:**                                              4 °C/-20 °C

---

**Storage Comment:**                                      Upon receipt, store the kit according to the storage instruction in the kit's manual.

---

**Expiry Date:**                                              6 months

---
