TSH receptor ELISA Kit

[Go to Product page](#)

Overview

Quantity:	96 tests
Target:	TSH receptor (TSHR)
Reactivity:	Mouse
Method Type:	Sandwich ELISA
Detection Range:	1.563 U/mL - 100 U/mL
Minimum Detection Limit:	1.563 U/mL
Application:	ELISA

Product Details

Purpose:	Mouse Thyroid Stimulating Hormone Receptor Antidoby ELISA Kit is an ELISA Kit against Thyroid Stimulating Hormone Receptor Antidoby.
Sample Type:	Plasma, Serum
Analytical Method:	Quantitative
Detection Method:	Colorimetric
Sensitivity:	0.938 U/mL

Target Details

Target:	TSH receptor (TSHR)
Alternative Name:	Thyroid Stimulating Hormone Receptor (TSHR Products)
Target Type:	Antibody

Target Details

Pathways: [Thyroid Hormone Synthesis](#)

Application Details

Application Notes: Stability: The stability of the kit is determined by the rate of activity loss. The loss rate is less than 5 % within the expiration date under appropriate storage conditions. To minimize performance fluctuations, operation procedures and lab conditions should be strictly controlled. It is also strongly suggested that the whole assay is performed by the same user throughout. Recommended dilutions: Optimal dilutions/concentrations should be determined by the end user.

Standard Form: Lyophilized

Plate: Pre-coated

Restrictions: For Research Use only

Handling

Storage: 4 °C/-20 °C

Storage Comment: Upon receipt, store the kit according to the storage instruction in the kit's manual.

Expiry Date: 6 months
