

## Datasheet for ABIN2951860 **TSHB ELISA Kit**

[Go to Product page](#)

### Overview

Quantity:	96 tests
Target:	TSHB
Reactivity:	Mouse
Method Type:	Competition ELISA
Detection Range:	0.156 $\mu$ IU/mL - 10 $\mu$ IU/mL
Minimum Detection Limit:	0.156 $\mu$ IU/mL
Application:	ELISA

### Product Details

Purpose:	Mouse Thyrotropin subunit beta ELISA Kit is an ELISA Kit against Thyrotropin subunit beta.
Sample Type:	Plasma, Serum
Analytical Method:	Quantitative
Detection Method:	Colorimetric
Sensitivity:	< 0.1 $\mu$ IU/mL

### Target Details

Target:	TSHB
Alternative Name:	Thyrotropin Subunit beta ( <a href="#">TSHB Products</a> )
Pathways:	<a href="#">Thyroid Hormone Synthesis</a> , <a href="#">Peptide Hormone Metabolism</a>

## Application Details

---

**Application Notes:**                      **Stability:** The stability of the kit is determined by the rate of activity loss. The loss rate is less than 5 % within the expiration date under appropriate storage conditions. To minimize performance fluctuations, operation procedures and lab conditions should be strictly controlled. It is also strongly suggested that the whole assay is performed by the same user throughout. **Recommended dilutions:** Optimal dilutions/concentrations should be determined by the end user.  
**Standard Form:** Lyophilized

---

**Plate:**                                              Pre-coated

---

**Restrictions:**                                      For Research Use only

---

## Handling

---

**Storage:**                                              4 °C/-20 °C

---

**Storage Comment:**                                      Upon receipt, store the kit according to the storage instruction in the kit's manual.

---

**Expiry Date:**                                              6 months

---
