

Datasheet for ABIN2951909 **TRIL ELISA Kit**

[Go to Product page](#)

Overview

Quantity:	96 tests
Target:	TRIL
Reactivity:	Rat
Method Type:	Sandwich ELISA
Detection Range:	0.156 ng/mL - 10 ng/mL
Minimum Detection Limit:	0.156 ng/mL
Application:	ELISA

Product Details

Purpose:	Rat TLR4 interactor with leucine rich repeats ELISA Kit is an ELISA kit against Rat TLR4 interactor with leucine rich repeats (Tril).
Sample Type:	Plasma, Serum
Analytical Method:	Quantitative
Detection Method:	Colorimetric

Target Details

Target:	TRIL
Alternative Name:	TLR4 Interactor with Leucine Rich Repeats (TRIL Products)
Pathways:	Activation of Innate immune Response , Production of Molecular Mediator of Immune Response

Application Details

Application Notes: **Stability:** The stability of the kit is determined by the rate of activity loss. The loss rate is less than 5 % within the expiration date under appropriate storage conditions. To minimize performance fluctuations, operation procedures and lab conditions should be strictly controlled. It is also strongly suggested that the whole assay is performed by the same user throughout.

Recommended dilutions: Optimal dilutions/concentrations should be determined by the end user.

Plate: Pre-coated

Restrictions: For Research Use only

Handling

Storage: 4 °C/-20 °C

Storage Comment: Upon receipt, store the kit according to the storage instruction in the kit's manual.

Expiry Date: 6 months
