**anti-PDK3 antibody**[Go to Product page](#)**2** Images

## Overview

|              |                                              |
|--------------|----------------------------------------------|
| Quantity:    | 400 µL                                       |
| Target:      | PDK3                                         |
| Reactivity:  | Human                                        |
| Host:        | Rabbit                                       |
| Clonality:   | Polyclonal                                   |
| Conjugate:   | This PDK3 antibody is un-conjugated          |
| Application: | Western Blotting (WB), Flow Cytometry (FACS) |

## Product Details

|               |                                                                                                  |
|---------------|--------------------------------------------------------------------------------------------------|
| Immunogen:    | Human PDK3.                                                                                      |
| Isotype:      | IgG                                                                                              |
| Purification: | This antibody is purified through a protein A column, followed by peptide affinity purification. |

## Target Details

|                   |                                                                                                                                                                               |
|-------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Target:           | PDK3                                                                                                                                                                          |
| Alternative Name: | PDK3 ( <a href="#">PDK3 Products</a> )                                                                                                                                        |
| UniProt:          | <a href="#">Q15120</a>                                                                                                                                                        |
| Pathways:         | <a href="#">PI3K-Akt Signaling</a> , <a href="#">Carbohydrate Homeostasis</a> , <a href="#">Regulation of Carbohydrate Metabolic Process</a> , <a href="#">Warburg Effect</a> |

Application Details

|                    |                                                                                                                        |
|--------------------|------------------------------------------------------------------------------------------------------------------------|
| Application Notes: | Optimal working dilution should be determined by the investigator.                                                     |
| Restrictions:      | For Research Use only                                                                                                  |
| Handling           |                                                                                                                        |
| Format:            | Liquid                                                                                                                 |
| Buffer:            | PBS with 0.09 % (W/V) sodium azide.                                                                                    |
| Preservative:      | Sodium azide                                                                                                           |
| Precaution of Use: | This product contains Sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only. |
| Storage:           | -20 °C                                                                                                                 |
| Storage Comment:   | Aliquot and store at -20 °C. Avoid repeated freeze/thaw cycles.                                                        |
