

Datasheet for ABIN301848 **anti-Collagen I/III antibody**

[Go to Product page](#)

Overview

Quantity:	0.05 mg
Target:	Collagen I/III
Reactivity:	Human
Host:	Rabbit
Clonality:	Polyclonal
Conjugate:	This Collagen I/III antibody is un-conjugated
Application:	ELISA, Immunohistochemistry (Frozen Sections) (IHC (fro))

Product Details

Immunogen:	Collagen I/III
Specificity:	Binds native 3D epitopes of human collagen type I and III. Cross-reactivity to other human collagens as measured by ELISA type IV below 3%, type V below 2%.
Purification:	Affinity purification on immobilized human collagen type I and III with cross-absorption against immobilised human blood plasma proteins and human collagen type II, IV and V

Target Details

Target:	Collagen I/III
Alternative Name:	Collagen I/III (Collagen I/III Products)
Background:	Rabbit anti-human collagen type I and III polyclonal antibody, Unconjugated

Application Details

Application Notes: Recommended dilutions: Detection of human collagen in ELISA (x4000), Histochemistry (frozen sections) (x30), Immunostaining of ECM in human cell cultures. Not suitable for denaturing and dissociating conditions., Use 0.5 ml sterile pure water

Restrictions: For Research Use only

Handling

Format: Lyophilized

Buffer: Contains mannitol, sodium chloride, sodium phosphate

Storage: -20 °C
