# anti-Barbiturate antibody

#### Overview

| Quantity:    | 1 mg                                       |
|--------------|--|
| Target:      | Barbiturate (BAR)                          |
| Reactivity:  | Please inquire                             |
| Host:        | Mouse                                      |
| Clonality:   | Monoclonal                                 |
| Conjugate:   | This Barbiturate antibody is un-conjugated |
| Application: | Lateral Flow (LF), ELISA                   |

#### **Product Details**

| Isotype:      | IgG1 kappa                                       |
|---------------|--|
| Purification: | Purified by SDS-PAGE Protein A Purified,Purified |
| Purity:       | ≥98 %  |

## Target Details

| Target:           | Barbiturate (BAR)          |
|-------------------|----------------------------|
| Alternative Name: | Barbiturate (BAR Products) |
| Target Type:      | Chemical                   |

## **Application Details**

| Application Notes: | Optimal working dilution should be determined by the investigator.   |
|--------------------|--|
| Restrictions:      | For Research Use only  |
| Handling           |  |
| Preservative:      | Sodium azide   |
| Precaution of Use: | This product contains Sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only. |
| Handling Advice:   | Avoid repeated freezing and thawing.   |
| Storage:           | 4 °C,-20 °C  |
| Storage Comment:   | Short Term (≤ 2 weeks): 2-8°C. Long Term: -20°C.   |
