anti-NOLC1 antibody

\sim					
()	VE	۲۱	/1	\triangle	Λ

Quantity:	100 μg	
Target:	NOLC1	
Reactivity:	Human, Rat, Mouse	
Host:	Mouse	
Clonality:	Monoclonal	
Conjugate:	This NOLC1 antibody is un-conjugated	
Application:	Western Blotting (WB)	
Product Details		
Clone:	KAB40	
Isotype:	lgG1	
Target Details		
Target:	NOLC1	
Alternative Name:	p130 (NOLC1 Products)	
Background:	The immunogen used was a GST fusion protein to the N terminus of p130. p130 is related both in structure and function to the retinoblastoma tumor suppressor protein and p107(collectively known as pocket proteins) and are known to regulate the activity of E2F transcription factors.	
	E2F transcription factors regulate the expression of a number of genes important in cell proliferation, particularly those involved in the progression through G1 and into the S-phase of	

the cell cycle. Binding of p130 converts E2F transcription factors from transcriptional activators

Target Details to transcriptional repressors. This antibody recognizes both the phosphorylated and unphosphorylated forms of p130 at a MW of 130kDa. Synonyms: p130, Retinoblastoma-like protein 2, RBR-2, PRB2. UniProt: Q08999 Pathways: Regulation of G-Protein Coupled Receptor Protein Signaling Application Details Restrictions: For Research Use only
