## Datasheet for ABIN3076578 SREBF chaperone Protein (SCAP) (AA 40-279) (His tag)

Image

Overview	
Quantity:	1 mg
Target:	SREBF chaperone (SCAP)
Protein Characteristics:	AA 40-279
Origin:	Human
Source:	Insect Cells
Protein Type:	Recombinant
Purification tag / Conjugate:	This SREBF chaperone protein is labelled with His tag.
Application:	Crystallization (Crys), ELISA, SDS-PAGE (SDS), Western Blotting (WB)
Product Details	
Sequence:	CCYPLLKLPL PGTGPVEFTT PVKDYSPPPV DSDRKQGEPT EQPEWYVGAP VAYVQQIFVK
	SSVFPWHKNL LAVDVFRSPL SRAFQLVEEI RNHVLRDSSG IRSLEELCLQ VTDLLPGLRK
	LRNLLPEHGC LLLSPGNFWQ NDWERFHADP DIIGTIHQHE PKTLQTSATL KDLLFGVPGK
	YSGVSLYTRK RMVSYTITLV FQHYHAKFLG SLRARLMLLH PSPNCSLRAE SLVHVHFKEE
	Sequence without tag. Tag location is at the discretion of the manufacturer. If you have a
	special request, please contact us.
Characteristics:	<ul> <li>Made in Germany - from design to production - by highly experienced protein experts.</li> <li>Human SCAP Protein (raised in Insect Cells) purified by multi-step, protein-specific process to ensure crystallization grade.</li> <li>State-of-the-art algorithm used for plasmid design (Gene synthesis).</li> </ul>
	This protein is a made to order protein and will be made for the first time for your order. Our
	experts in the lab will ensure that you receive a correctly folded protein.

Order at www.antibodies-online.com | www.antikoerper-online.de | www.anticorps-enligne.fr | www.antibodies-online.cn International: +49 (0)241 95 163 153 | USA & Canada: +1 877 302 8632 | support@antibodies-online.com Page 1/4 | Product datasheet for ABIN3076578 | 09/11/2023 | Copyright antibodies-online. 	The big advantage of ordering our made-to-order proteins in comparison to ordering custom
	made proteins from other companies is that there is no financial obligation in case the protein
	cannot be expressed or purified.
	In the unlikely event that the protein cannot be expressed or purified we do not charge anything
	(other companies might charge you for any performed steps in the expression process for
	custom-made proteins, e.g. fees might apply for the expression plasmid, the first expression
	experiments or purification optimization).
	When you order this made-to-order protein you will only pay upon receival of the correctly
	folded protein. With no financial risk on your end you can rest assured that our experienced
	protein experts will do everything to make sure that you receive the protein you ordered.
	The concentration of our recombinant proteins is measured using the absorbance at 280nm.
	The protein's absorbance will be measured in several dilutions and is measured against its
	specific reference buffer.
	The concentration of the protein is calculated using its specific absorption coefficient. We use
	the Expasy's protparam tool to determine the absorption coefficient of each protein.
Purification:	Two step purification of proteins expressed in baculovirus infected SF9 insect cells:
	<ol> <li>In a first purification step, the protein is purified from the cleared cell lysate using three different His-tag capture materials: high yield, EDTA resistant, or DTT resistant. Eluate fractions are analyzed by SDS-PAGE.</li> <li>Protein containing fractions of the best purification are subjected to second purification step</li> </ol>
	through size exclusion chromatography. Eluate fractions are analyzed by SDS-PAGE and Western blot.
<sup>D</sup> urity:	>95 % as determined by SDS PAGE, Size Exclusion Chromatography and Western Blot.
Sterility:	0.22 µm filtered
Endotoxin Level:	Protein is endotoxin free.
Grade:	Crystallography grade
Target Details	
Target:	SREBF chaperone (SCAP)
Alternative Name:	SCAP (SCAP Products)
Background:	Escort protein required for cholesterol as well as lipid homeostasis. Regulates export of the
	SCAP/SREBF complex from the ER upon low cholesterol. Formation of a ternary complex with
	INSIG at high sterol concentrations leads to masking of an ER-export signal in SCAP and

Order at www.antibodies-online.com | www.antikoerper-online.de | www.anticorps-enligne.fr | www.antibodies-online.cn International: +49 (0)241 95 163 153 | USA & Canada: +1 877 302 8632 | support@antibodies-online.com Page 2/4 | Product datasheet for ABIN3076578 | 09/11/2023 | Copyright antibodies-online. All rights reserved.

## Target Details

	retention of the complex in the ER. Low sterol concentrations trigger release of INSIG, a
	conformational change in the SSC domain of SCAP, unmasking of the ER export signal,
	recruitment into COPII-coated vesicles, transport to the Golgi complex, proteolytic cleavage of
	SREBF in the Golgi, release of the transcription factor fragment of SREBF from the membrane,
	its import into the nucleus and up-regulation of LDLR, INSIG1 and the mevalonate pathway (By
	similarity). {ECO:0000250}.
Molecular Weight:	28.3 kDa Including tag.
UniProt:	Q12770
Pathways:	SARS-CoV-2 Protein Interactome

## Application Details

Application Notes:	In addition to the applications listed above we expect the protein to work for functional studies as well. As the protein has not been tested for functional studies yet we cannot offer a guarantee though.
Comment:	In cases in which it is highly likely that the recombinant protein with the default tag will be insoluble our protein lab may suggest a higher molecular weight tag (e.g. GST-tag) instead to increase solubility. We will discuss all possible options with you in detail to assure that you receive your protein of interest.
Restrictions:	For Research Use only

## Handling

Format:	Liquid
Buffer:	100 mM NaCL, 20 mM Hepes, 10% glycerol. pH value is at the discretion of the manufacturer.
Handling Advice:	Avoid repeated freeze-thaw cycles.
Storage:	-80 °C
Storage Comment:	Store at -80°C.
Expiry Date:	Unlimited (if stored properly)
