## Datasheet for ABIN3079952 FCGR2C Protein (AA 43-223) (His tag)

Overview

Sequence without tag. Tag location is at the discretion of the manufacturer. If you have special request, please contact us.         Characteristics:       • Made in Germany - from design to production - by highly experienced protein experts.         • Human FCGR2C Protein (raised in E. Coli) purified by multi-step, protein-specific process ensure crystallization grade.         • State-of-the-art algorithm used for plasmid design (Gene synthesis).         This protein is a made to order protein and will be made for the first time for your order. Or experts in the lab will ensure that you receive a correctly folded protein.		
Protein Characteristics:       AA 43-223         Origin:       Human         Source:       Escherichia coli (E. coli)         Protein Type:       Recombinant         Purification tag / Conjugate:       This FCGR2C protein is labelled with His tag.         Application:       Crystallization (Crys), ELISA, SDS-PAGE (SDS), Western Blotting (WB)         Product Details       Sequence:         TPAAPPKAVL KLEPQWINVL QEDSVTLTCR GTHSPESDSI QWFHNGNLIP THTQPSYRFK ANNNDSGEYT CQTGQTSLSD PVHLTVLSEW LVLQTPHLEF QEGETIVLRC HSWKDKPLVK VTFFQNGKSK KFSRSDPNFS IPQANHSHSG DYHCTGNIGY TLYSSKPVTI TVQAPSSSPM G         Sequence:       * Made in Germany - from design to production - by highly experienced protein experts.         Characteristics:       * Made in Germany - from design to production - by highly experienced protein experts.         * Human FCGR2C Protein (raised in E. Coli) purified by multi-step, protein-specific process ensure crystallization grade.       * State-of-the-art algorithm used for plasmid design (Gene synthesis).         This protein is a made to order protein and will be made for the first time for your order. O experts in the lab will ensure that you receive a correctly folded protein.	Quantity:	1 mg

	made proteins from other companies is that there is no financial obligation in case the protein
	cannot be expressed or purified.
	In the unlikely event that the protein cannot be expressed or purified we do not charge anything
	(other companies might charge you for any performed steps in the expression process for
	custom-made proteins, e.g. fees might apply for the expression plasmid, the first expression
	experiments or purification optimization).
	When you order this made-to-order protein you will only pay upon receival of the correctly
	folded protein. With no financial risk on your end you can rest assured that our experienced
	protein experts will do everything to make sure that you receive the protein you ordered.
	The concentration of our recombinant proteins is measured using the absorbance at 280nm.
	The protein's absorbance will be measured in several dilutions and is measured against its
	specific reference buffer.
	The concentration of the protein is calculated using its specific absorption coefficient. We use
	the Expasy's protparam tool to determine the absorption coefficient of each protein.
Purification:	Two step purification of proteins expressed in bacterial culture:
	<ol> <li>In a first purification step, the protein is purified from the cleared cell lysate using three different His-tag capture materials: high yield, EDTA resistant, or DTT resistant. Eluate fractions are analyzed by SDS-PAGE.</li> </ol>
	<ol> <li>Protein containing fractions of the best purification are subjected to second purification step through size exclusion chromatography. Eluate fractions are analyzed by SDS-PAGE and Western blot.</li> </ol>
Purity:	>95 % as determined by SDS PAGE, Size Exclusion Chromatography and Western Blot.
Sterility:	0.22 µm filtered
Endotoxin Level:	Endotoxin has not been removed. Please contact us if you require endotoxin removal.
Grade:	Crystallography grade
Target Details	
Target:	FCGR2C
Alternative Name:	FCGR2C (FCGR2C Products)
Background:	Receptor for the Fc region of complexed immunoglobulins gamma. Low affinity receptor.
	Involved in a variety of effector and regulatory functions such as phagocytosis of immune
	complexes and modulation of antibody production by B-cells.
Molecular Weight:	21.1 kDa Including tag.

Order at www.antibodies-online.com | www.antikoerper-online.de | www.anticorps-enligne.fr | www.antibodies-online.cn International: +49 (0)241 95 163 153 | USA & Canada: +1 877 302 8632 | support@antibodies-online.com Page 2/3 | Product datasheet for ABIN3079952 | 09/11/2023 | Copyright antibodies-online. Target Details	
UniProt:	P31995
Application Details	
Application Notes:	In addition to the applications listed above we expect the protein to work for functional studies as well. As the protein has not been tested for functional studies yet we cannot offer a guarantee though.
Comment:	In cases in which it is highly likely that the recombinant protein with the default tag will be insoluble our protein lab may suggest a higher molecular weight tag (e.g. GST-tag) instead to increase solubility. We will discuss all possible options with you in detail to assure that you receive your protein of interest.
Restrictions:	For Research Use only
Handling	
Format:	Liquid
Buffer:	100 mM NaCL, 20 mM Hepes, 10% glycerol. pH value is at the discretion of the manufacturer.
Handling Advice:	Avoid repeated freeze-thaw cycles.
Storage:	-80 °C
Storage Comment:	Store at -80°C.
Expiry Date:	Unlimited (if stored properly)
