

Datasheet for ABIN3082283 KCNK2 Protein (AA 309-426) (His tag)

Go to Product page

| Overview | |
|-------------------------------|---|
| Quantity: | 1 mg |
| Target: | KCNK2 |
| Protein Characteristics: | AA 309-426 |
| Origin: | Human |
| Source: | Escherichia coli (E. coli) |
| Protein Type: | Recombinant |
| Purification tag / Conjugate: | This KCNK2 protein is labelled with His tag. |
| Application: | ELISA, SDS-PAGE (SDS), Western Blotting (WB), Crystallization (Crys) |
| Product Details | |
| Sequence: | DWLRVISKKT KEEVGEFRAH AAEWTANVTA EFKETRRRLS VEIYDKFQRA TSIKRKLSAE |
| | LAGNHNQELT PCRRTLSVNH LTSERDVLPP LLKTESIYLN GLTPHCAGEE IAVIENIK |
| | Sequence without tag. Tag location is at the discretion of the manufacturer. If you have a |
| | special request, please contact us. |
| Characteristics: | Made in Germany - from design to production - by highly experienced protein experts. Human KCNK2 Protein (raised in E. Coli) purified by multi-step, protein-specific process to ensure crystallization grade. State-of-the-art algorithm used for plasmid design (Gene synthesis). |
| | This protein is a made to order protein and will be made for the first time for your order. Our |
| | experts in the lab will ensure that you receive a correctly folded protein. |
| | The big advantage of ordering our made-to-order proteins in comparison to ordering custom |
| | made proteins from other companies is that there is no financial obligation in case the protein |

Order at www.antibodies-online.com | www.antikoerper-online.de | www.anticorps-enligne.fr | www.antibodies-online.cn International: +49 (0)241 95 163 153 | USA & Canada: +1 877 302 8632 | support@antibodies-online.com Page 1/3 | Product datasheet for ABIN3082283 | 08/02/2024 | Copyright antibodies-online. | | cannot be expressed or purified. |
|------------------|--|
| | In the unlikely event that the protein cannot be expressed or purified we do not charge anything |
| | (other companies might charge you for any performed steps in the expression process for |
| | custom-made proteins, e.g. fees might apply for the expression plasmid, the first expression |
| | experiments or purification optimization). |
| | When you order this made-to-order protein you will only pay upon receival of the correctly |
| | folded protein. With no financial risk on your end you can rest assured that our experienced |
| | protein experts will do everything to make sure that you receive the protein you ordered. |
| | The concentration of our recombinant proteins is measured using the absorbance at 280nm. |
| | The protein's absorbance will be measured in several dilutions and is measured against its |
| | specific reference buffer. |
| | The concentration of the protein is calculated using its specific absorption coefficient. We use |
| | the Expasy's protparam tool to determine the absorption coefficient of each protein. |
| Purification: | Two step purification of proteins expressed in bacterial culture: |
| | In a first purification step, the protein is purified from the cleared cell lysate using three different His-tag capture materials: high yield, EDTA resistant, or DTT resistant. Eluate fractions are analyzed by SDS-PAGE. |
| | 2. Protein containing fractions of the best purification are subjected to second purification step through size exclusion chromatography. Eluate fractions are analyzed by SDS-PAGE and Western blot. |
| Purity: | >95 % as determined by SDS PAGE, Size Exclusion Chromatography and Western Blot. |
| Sterility: | 0.22 µm filtered |
| Endotoxin Level: | Endotoxin has not been removed. Please contact us if you require endotoxin removal. |
| Grade: | Crystallography grade |

Target Details

| Target: | KCNK2 |
|-------------------|---|
| Alternative Name: | KCNK2 (KCNK2 Products) |
| Background: | lon channel that contributes to passive transmembrane potassium transport |
| | (PubMed:23169818). Reversibly converts between a voltage-insensitive potassium leak channel |
| | and a voltage-dependent outward rectifying potassium channel in a phosphorylation-dependent |
| | manner (PubMed:11319556). In astrocytes, forms mostly heterodimeric potassium channels |
| | with KCNK1, with only a minor proportion of functional channels containing homodimeric |

Order at www.antibodies-online.com | www.antikoerper-online.de | www.anticorps-enligne.fr | www.antibodies-online.cn International: +49 (0)241 95 163 153 | USA & Canada: +1 877 302 8632 | support@antibodies-online.com Page 2/3 | Product datasheet for ABIN3082283 | 08/02/2024 | Copyright antibodies-online. All rights reserved.

Target Details

| | KCNK2. In astrocytes, the heterodimer formed by KCNK1 and KCNK2 is required for rapid |
|---------------------|---|
| | glutamate release in response to activation of G-protein coupled receptors, such as F2R and |
| | CNR1 (By similarity). {ECO:0000250 UniProtKB:P97438, ECO:0000269 PubMed:10784345, |
| | ECO:0000269 PubMed:11319556, ECO:0000269 PubMed:23169818}., Isoform 4: Does not |
| | display channel activity but reduces the channel activity of isoform 1 and isoform 2 and |
| | reduces cell surface expression of isoform 2. {ECO:0000250}. |
| Molecular Weight: | 14.5 kDa Including tag. |
| UniProt: | 095069 |
| Application Details | |
| Application Notes: | In addition to the applications listed above we expect the protein to work for functional studies |
| | as well. As the protein has not been tested for functional studies yet we cannot offer a |
| | guarantee though. |
| Comment: | In cases in which it is highly likely that the recombinant protein with the default tag will be |
| | insoluble our protein lab may suggest a higher molecular weight tag (e.g. GST-tag) instead to |
| | increase solubility. We will discuss all possible options with you in detail to assure that you |
| | receive your protein of interest. |
| Restrictions: | For Research Use only |
| Handling | |
| Format: | Liquid |
| Buffer: | 100 mM NaCL, 20 mM Hepes, 10% glycerol. pH value is at the discretion of the manufacturer. |
| Handling Advice: | Avoid repeated freeze-thaw cycles. |
| Storage: | -80 °C |
| Storage Comment: | Store at -80°C. |
| Expiry Date: | Unlimited (if stored properly) |
| | |
