Datasheet for ABIN3083372 MAFA Protein (AA 1-353) (Strep Tag)

3 Images

Overview

| Quantity: | 1 mg |
|-------------------------------|---|
| Target: | MAFA |
| Protein Characteristics: | AA 1-353 |
| Origin: | Human |
| Source: | Tobacco (Nicotiana tabacum) |
| Protein Type: | Recombinant |
| Purification tag / Conjugate: | This MAFA protein is labelled with Strep Tag. |
| Application: | ELISA, Western Blotting (WB), SDS-PAGE (SDS) |

Product Details

All rights reserved. correct folding and modification.

- These proteins are normally active (enzymatically functional) as our customers have reported (not tested by us and not guaranteed).
- State-of-the-art algorithm used for plasmid design (Gene synthesis).

This protein is a **made-to-order protein** and will be made for the first time for your order. Our experts in the lab will ensure that you receive a correctly folded protein. The big advantage of ordering our **made-to-order proteins** in comparison to ordering custom made proteins from other companies is that there is no financial obligation in case the protein cannot be expressed or purified.

Expression System:

- ALICE®, our Almost Living Cell-Free Expression System is based on a lysate obtained from Nicotiana tabacum c.v.. This contains all the protein expression machinery needed to produce even the most difficult-to-express proteins, including those that require post-translational modifications.
- During lysate production, the cell wall and other cellular components that are not required for
 protein production are removed, leaving only the protein production machinery and the
 mitochondria to drive the reaction. During our lysate completion steps, the additional
 components needed for protein production (amino acids, cofactors, etc.) are added to
 produce something that functions like a cell, but without the constraints of a living system all that's needed is the DNA that codes for the desired protein!

Concentration:

- The concentration of our recombinant proteins is measured using the absorbance at 280nm.
- The protein's absorbance will be measured in several dilutions and is measured against its specific reference buffer.
- We use the Expasy's ProtParam tool to determine the absorption coefficient of each protein.

| Purification: | Two step purification of proteins expressed in Almost Living Cell-Free Expression System |
|---------------|--|
| | (ALICE®): |
| | 1. In a first purification step, the protein is purified from the cleared cell lysate using StrepTag capture material. Eluate fractions are analyzed by SDS-PAGE. |
| | Protein containing fractions of the best purification are subjected to second purification step through size exclusion chromatography. Eluate fractions are analyzed by SDS-PAGE and Western blot. |
| Purity: | >80 % as determined by SDS PAGE, Size Exclusion Chromatography and Western Blot. |

| Product Details | |
|------------------|---|
| Endotoxin Level: | Low Endotoxin less than 1 EU/mg (< 0.1 ng/mg) |
| Grade: | Crystallography grade |

Target Details

| Target: | MAFA |
|---------------------|---|
| Alternative Name: | MAFA (MAFA Products) |
| Background: | Transcription factor MafA (Pancreatic beta-cell-specific transcriptional activator) (RIPE3b1 |
| | factor) (V-maf musculoaponeurotic fibrosarcoma oncogene homolog A),FUNCTION: |
| | Transcription factor that activates insulin gene expression (PubMed:15993959, |
| | PubMed:12011435). Acts synergistically with NEUROD1/BETA2 and PDX1 |
| | (PubMed:15993959). Binds the insulin enhancer C1/RIPE3b element (PubMed:12011435). |
| | Binds to consensus TRE-type MARE 5'-TGCTGACTCAGCA-3' DNA sequence |
| | (PubMed:23148532, PubMed:29339498). {ECO:0000269 PubMed:12011435, |
| | ECO:0000269 PubMed:15993959, ECO:0000269 PubMed:23148532, |
| | ECO:0000269 PubMed:29339498}. |
| Molecular Weight: | 37.0 kDa |
| UniProt: | Q8NHW3 |
| Pathways: | Hormone Transport |
| Application Details | |
| Application Notes: | In addition to the applications listed above we expect the protein to work for functional studie |
| | as well. As the protein has not been tested for functional studies yet we cannot offer a |
| | guarantee though. |
