## Datasheet for ABIN3091374 C9orf64 Protein (AA 1-341) (His tag)

Overview

| Quantity:                     | 1 mg   |
|-------------------------------|--|
| Target:                       | C9orf64  |
| Protein Characteristics:      | AA 1-341   |
| Origin:                       | Human  |
| Source:                       | Insect Cells   |
| Protein Type:                 | Recombinant  |
| Purification tag / Conjugate: | This C9orf64 protein is labelled with His tag.                       |
| Application:                  | ELISA, Crystallization (Crys), SDS-PAGE (SDS), Western Blotting (WB) |

## Product Details

| Sequence:        | <ul> <li>MDGLLNPRES SKFIAENSRD VFIDSGGVRR VAELLLAKAA GPELRVEGWK ALHELNPRAA</li> <li>DEAAVNWVFV TDTLNFSFWS EQDEHKCVVR YRGKTYSGYW SLCAAVNRAL DEGIPITSAS</li> <li>YYATVTLDQV RNILRSDTDV SMPLVEERHR ILNETGKILL EKFGGSFLNC VRESENSAQK</li> <li>LMHLVVESFP SYRDVTLFEG KRVSFYKRAQ ILVADTWSVL EGKGDGCFKD ISSITMFADY</li> <li>RLPQVLAHLG ALKYSDDLLK KLLKGEMLSY GDRQEVEIRG CSLWCVELIR DCLLELIEQK</li> <li>GEKPNGEINS ILLDYYLWDY AHDHREDMKG IPFHRIRCIY Y</li> <li>Sequence without tag. | Product Details   |   |
|-------------------|---|
|                   | This protein is a made to order protein and will be made for the first time for your order. Our   |
|                   | experts in the lab will ensure that you receive a correctly folded protein.   |
|                   | The big advantage of ordering our made-to-order proteins in comparison to ordering custom   |
|                   | made proteins from other companies is that there is no financial obligation in case the protein   |
|                   | cannot be expressed or purified.  |
|                   | In the unlikely event that the protein cannot be expressed or purified we do not charge anything  |
|                   | (other companies might charge you for any performed steps in the expression process for   |
|                   | custom-made proteins, e.g. fees might apply for the expression plasmid, the first expression  |
|                   | experiments or purification optimization).  |
|                   | When you order this made-to-order protein you will only pay upon receival of the correctly  |
|                   | folded protein. With no financial risk on your end you can rest assured that our experienced  |
|                   | protein experts will do everything to make sure that you receive the protein you ordered.   |
|                   | The concentration of our recombinant proteins is measured using the absorbance at 280nm.  |
|                   | The protein's absorbance will be measured in several dilutions and is measured against its  |
|                   | specific reference buffer.  |
|                   | The concentration of the protein is calculated using its specific absorption coefficient. We use  |
|                   | the Expasy's protparam tool to determine the absorption coefficient of each protein.  |
| Purification:     | Two step purification of proteins expressed in baculovirus infected SF9 insect cells:   |
|                   | 1. In a first purification step, the protein is purified from the cleared cell lysate using three different His-tag capture materials: high yield, EDTA resistant, or DTT resistant. Eluate |
|                   | fractions are analyzed by SDS-PAGE.<br>2. Protein containing fractions of the best purification are subjected to second purification step   |
|                   | through size exclusion chromatography. Eluate fractions are analyzed by SDS-PAGE and Western blot.  |
| Purity:           | >95 % as determined by SDS PAGE, Size Exclusion Chromatography and Western Blot.  |
| Sterility:        | 0.22 µm filtered  |
| Endotoxin Level:  | Protein is endotoxin free.  |
| Grade:            | Crystallography grade   |
| Target Details    |   |
| Target:           | C9orf64   |
| Alternative Name: | C9orf64 (C9orf64 Products)  |
| Molecular Weight: | 40.0 kDa Including tag.   |

Order at www.antibodies-online.com | www.antikoerper-online.de | www.anticorps-enligne.fr | www.antibodies-online.cn International: +49 (0)241 95 163 153 | USA & Canada: +1 877 302 8632 | support@antibodies-online.com Page 2/3 | Product datasheet for ABIN3091374 | 09/11/2023 | Copyright antibodies-online. | Target Details      |   |
|---------------------|---|
| UniProt:            | Q5T6V5  |
| Application Details |   |
| Application Notes:  | In addition to the applications listed above we expect the protein to work for functional studies<br>as well. As the protein has not been tested for functional studies yet we cannot offer a gurantee<br>though.   |
| Comment:            | In cases in which it is highly likely that the recombinant protein with the default tag will be insoluble our protein lab may suggest a higher molecular weight tag (e.g. GST-tag) instead to increase solubility. We will discuss all possible options with you in detail to assure that you receive your protein of interest. |
| Restrictions:       | For Research Use only   |
| Handling            |   |
| Format:             | Liquid  |
| Buffer:             | 100 mM NaCL, 20 mM Hepes, 10% glycerol. pH value is at the discretion of the manufacturer.  |
| Handling Advice:    | Avoid repeated freeze-thaw cycles.  |
| Storage:            | -80 °C  |
| Storage Comment:    | Store at -80°C.   |
| Expiry Date:        | Unlimited (if stored properly)  |
