antibodies

# Datasheet for ABIN3093964 MYOC Protein (AA 227-504) (His tag)

Image

Overview

| Quantity:                     | 1 mg   |
|-------------------------------|--|
| Target:                       | MYOC   |
| Protein Characteristics:      | AA 227-504   |
| Origin:                       | Human  |
| Source:                       | Escherichia coli (E. coli)   |
| Protein Type:                 | Recombinant  |
| Purification tag / Conjugate: | This MYOC protein is labelled with His tag.  |
| Application:                  | Western Blotting (WB), ELISA, SDS-PAGE (SDS), Crystallization (Crys)                       |
| Product Details               |  |
| Sequence:                     | ILKESPSGYL RSGEGDTGCG ELVWVGEPLT LRTAETITGK YGVWMRDPKP TYPYTQETTW                          |
|                               | RIDTVGTDVR QVFEYDLISQ FMQGYPSKVH ILPRPLESTG AVVYSGSLYF QGAESRTVIR                          |
|                               | YELNTETVKA EKEIPGAGYH GQFPYSWGGY TDIDLAVDEA GLWVIYSTDE AKGAIVLSKL                          |
|                               | NPENLELEQT WETNIRKQSV ANAFIICGTL YTVSSYTSAD ATVNFAYDTG TGISKTLTIP                          |
|                               | FKNRYKYSSM IDYNPLEKKL FAWDNLNMVT YDIKLSKM  |
|                               | Sequence without tag. Tag location is at the discretion of the manufacturer. If you have a |
|                               | special request, please contact us.  |
| Characteristics:              | Made in Germany - from design to production - by highly experienced protein experts.       |
|                               | Lluman MVOC Dratain (raised in E. Cali) nurified by multi-stan protain apacific process to |

- Human MYOC Protein (raised in E. Coli) purified by multi-step, protein-specific process to ensure crystallization grade.
- State-of-the-art algorithm used for plasmid design (Gene synthesis).

This protein is a made to order protein and will be made for the first time for your order. Our

## Target Details

| Target:           | MYOC  |
|-------------------|---|
| Alternative Name: | MYOC (MYOC Products)  |
| Background:       | Secreted glycoprotein regulating the activation of different signaling pathways in adjacent cells |
|                   | to control different processes including cell adhesion, cell-matrix adhesion, cytoskeleton        |

|                   | organization and cell migration. Promotes substrate adhesion, spreading and formation of focal    |
|-------------------|---|
|                   | contacts. Negatively regulates cell-matrix adhesion and stress fiber assembly through Rho         |
|                   | protein signal transduction. Modulates the organization of actin cytoskeleton by stimulating the  |
|                   | formation of stress fibers through interactions with components of Wnt signaling pathways.        |
|                   | Promotes cell migration through activation of PTK2 and the downstream phosphatidylinositol        |
|                   | 3-kinase signaling. Plays a role in bone formation and promotes osteoblast differentiation in a   |
|                   | dose-dependent manner through mitogen-activated protein kinase signaling. Mediates                |
|                   | myelination in the peripheral nervous system through ERBB2/ERBB3 signaling. Plays a role as a     |
|                   | regulator of muscle hypertrophy through the components of dystrophin-associated protein           |
|                   | complex. Involved in positive regulation of mitochondrial depolarization. Plays a role in neurite |
|                   | outgrowth. May participate in the obstruction of fluid outflow in the trabecular meshwork.        |
|                   | {EC0:0000250 UniProtKB:070624, EC0:0000269 PubMed:17516541,                                       |
|                   | ECO:0000269 PubMed:17984096, ECO:0000269 PubMed:18855004,   |
|                   | ECO:0000269 PubMed:19188438, ECO:0000269 PubMed:19959812,   |

|                   | ECO:0000269 PubMed:23897819}.   |
| Molecular Weight: | 32.2 kDa Including tag.   |
| UniProt:          | Q99972  |

## Application Details

| Application Notes: | In addition to the applications listed above we expect the protein to work for functional studies as well. As the protein has not been tested for functional studies yet we cannot offer a gurantee though.  |
|--------------------|--|
| Comment:           | In cases in which it is highly likely that the recombinant protein with the default tag will be<br>insoluble our protein lab may suggest a higher molecular weight tag (e.g. GST-tag) instead to<br>increase solubility. We will discuss all possible options with you in detail to assure that you<br>receive your protein of interest. |
| Restrictions:      | For Research Use only  |
| Handling           |  |

| Format:          | Liquid   |
|------------------|--|
| Buffer:          | 100 mM NaCL, 20 mM Hepes, 10% glycerol. pH value is at the discretion of the manufacturer. |
| Handling Advice: | Avoid repeated freeze-thaw cycles.   |

Order at www.antibodies-online.com | www.antikoerper-online.de | www.anticorps-enligne.fr | www.antibodies-online.cn International: +49 (0)241 95 163 153 | USA & Canada: +1 877 302 8632 | support@antibodies-online.com Page 3/4 | Product datasheet for ABIN3093964 | 09/11/2023 | Copyright antibodies-online. #### Handling

| Storage:         | -80 °C                         |
|------------------|--------------------------------|
| Storage Comment: | Store at -80°C.                |
| Expiry Date:     | Unlimited (if stored properly) |
