## Datasheet for ABIN3094892 RBMX Protein (AA 2-391) (His tag)

Image

## Overview

Quantity:	1 mg
Target:	RBMX
Protein Characteristics:	AA 2-391
Origin:	Human
Source:	Insect Cells
Protein Type:	Recombinant
Purification tag / Conjugate:	This RBMX protein is labelled with His tag.
Application:	ELISA, Crystallization (Crys), SDS-PAGE (SDS), Western Blotting (WB)

## Product Details

Sequence:	VEADRPGKLF IGGLNTETNE KALEAVFGKY GRIVEVLLMK DRETNKSRGF AFVTFESPAD
	AKDAARDMNG KSLDGKAIKV EQATKPSFES GRRGPPPPPR SRGPPRGLRG GRGGSGGTRG
	PPSRGGHMDD GGYSMNFNMS SSRGPLPVKR GPPPRSGGPP PKRSAPSGPV RSSSGMGGRA
	PVSRGRDSYG GPPRREPLPS RRDVYLSPRD DGYSTKDSYS SRDYPSSRDT RDYAPPPRDY
	TYRDYGHSSS RDDYPSRGYS DRDGYGRDRD YSDHPSGGSY RDSYESYGNS RSAPPTRGPP
	PSYGGSSRYD DYSSSRDGYG GSRDSYSSSR SDLYSSGRDR VGRQERGLPP SMERGYPPPR
	DSYSSSSRGA PRGGGRGGSR SDRGGGRSRY
	Sequence without tag. Tag location is at the discretion of the manufacturer. If you have a
	special request, please contact us.
Characteristics:	<ul> <li>Made in Germany - from design to production - by highly experienced protein experts.</li> <li>Human RBMX Protein (raised in Insect Cells) purified by multi-step, protein-specific process to ensure crystallization grade.</li> </ul>

	State-of-the-art algorithm used for plasmid design (Gene synthesis).
	This protein is a made to order protein and will be made for the first time for your order. Our
	experts in the lab will ensure that you receive a correctly folded protein.
	The big advantage of ordering our made-to-order proteins in comparison to ordering custom
	made proteins from other companies is that there is no financial obligation in case the protein
	cannot be expressed or purified.
	In the unlikely event that the protein cannot be expressed or purified we do not charge anything
	(other companies might charge you for any performed steps in the expression process for
	custom-made proteins, e.g. fees might apply for the expression plasmid, the first expression
	experiments or purification optimization).
	When you order this made-to-order protein you will only pay upon receival of the correctly
	folded protein. With no financial risk on your end you can rest assured that our experienced
	protein experts will do everything to make sure that you receive the protein you ordered.
	The concentration of our recombinant proteins is measured using the absorbance at 280nm.
	The protein's absorbance will be measured in several dilutions and is measured against its
	specific reference buffer.
	The concentration of the protein is calculated using its specific absorption coefficient. We use
	the Expasy's protparam tool to determine the absorption coefficient of each protein.
Purification:	Two step purification of proteins expressed in baculovirus infected SF9 insect cells:
	1. In a first purification step, the protein is purified from the cleared cell lysate using three
	different His-tag capture materials: high yield, EDTA resistant, or DTT resistant. Eluate fractions are analyzed by SDS-PAGE.
	2. Protein containing fractions of the best purification are subjected to second purification step
	through size exclusion chromatography. Eluate fractions are analyzed by SDS-PAGE and
	Western blot.
Purity:	>95 % as determined by SDS PAGE, Size Exclusion Chromatography and Western Blot.
Sterility:	0.22 µm filtered
Endotoxin Level:	Protein is endotoxin free.
Grade:	Crystallography grade
Target Details	
Target:	RBMX
Alternative Name:	RBMX (RBMX Products)

Target Details	
Background:	RNA-binding protein that plays several role in the regulation of pre- and post-transcriptional
	processes. Implicated in tissue-specific regulation of gene transcription and alternative splicing
	of several pre-mRNAs. Binds to and stimulates transcription from the tumor suppressor TXNIP
	gene promoter, may thus be involved in tumor suppression. When associated with SAFB, binds
	to and stimulates transcription from the SREBF1 promoter. Associates with nascent mRNAs
	transcribed by RNA polymerase II. Component of the supraspliceosome complex that regulates
	pre-mRNA alternative splice site selection. Can either activate or suppress exon inclusion, acts
	additively with TRA2B to promote exon 7 inclusion of the survival motor neuron SMN2.
	Represses the splicing of MAPT/Tau exon 10. Binds preferentially to single-stranded 5'-CC[A/C]
	rich RNA sequence motifs localized in a single-stranded conformation, probably binds RNA as a
	homodimer. Binds non-specifically to pre-mRNAs. Plays also a role in the cytoplasmic TNFR1
	trafficking pathways, promotes both the IL-1-beta-mediated inducible proteolytic cleavage of
	TNFR1 ectodomains and the release of TNFR1 exosome-like vesicles to the extracellular
	compartment. {ECO:0000269 PubMed:12165565, ECO:0000269 PubMed:12761049,
	ECO:0000269 PubMed:16707624, ECO:0000269 PubMed:18445477,
	ECO:0000269 PubMed:18541147, ECO:0000269 PubMed:19282290,
	EC0:0000269 PubMed:21327109}.
Molecular Weight:	43.2 kDa Including tag.
UniProt:	P38159
Pathways:	Chromatin Binding, Ribonucleoprotein Complex Subunit Organization
Application Details	
Application Notes:	In addition to the applications listed above we expect the protein to work for functional studies
	as well. As the protein has not been tested for functional studies yet we cannot offer a gurantee
	though.
Comment:	In cases in which it is highly likely that the recombinant protein with the default tag will be
	insoluble our protein lab may suggest a higher molecular weight tag (e.g. GST-tag) instead to
	increase solubility. We will discuss all possible options with you in detail to assure that you
	receive your protein of interest.
Restrictions:	For Research Use only
Handling	

Order at www.antibodies-online.com | www.antikoerper-online.de | www.anticorps-enligne.fr | www.antibodies-online.cn International: +49 (0)241 95 163 153 | USA & Canada: +1 877 302 8632 | support@antibodies-online.com Page 3/4 | Product datasheet for ABIN3094892 | 09/11/2023 | Copyright antibodies-online. Handling		
Buffer:	100 mM NaCL, 20 mM Hepes, 10% glycerol. pH value is at the discretion of the manufacturer.	
Handling Advice:	Avoid repeated freeze-thaw cycles.	
Storage:	-80 °C	
Storage Comment:	Store at -80°C.	
Expiry Date:	Unlimited (if stored properly)
