

## Datasheet for ABIN3116388 SLC15A3 Protein (AA 1-581) (Strep Tag)

Overview

Quantity:	250 µg
Target:	SLC15A3
Protein Characteristics:	AA 1-581
Origin:	Human
Source:	Cell-free protein synthesis (CFPS)
Protein Type:	Recombinant
Purification tag / Conjugate:	This SLC15A3 protein is labelled with Strep Tag.
Application:	ELISA, Western Blotting (WB), SDS-PAGE (SDS)

## Product Details

Brand:	AliCE®
Sequence:	MPAPRAREQP RVPGERQPLL PRGARGPRRW RRAAGAAVLL VEMLERAAFF GVTANLVLYL
	NSTNFNWTGE QATRAALVFL GASYLLAPVG GWLADVYLGR YRAVALSLLL YLAASGLLPA

	system, a different complexity of the protein could make another tag necessary. In case yo	
	have a special request, please contact us.	
Characteristics:	Key Benefits:	
	<ul> <li>Made in Germany - from design to production - by highly experienced protein experts.</li> <li>Protein expressed with ALiCE® and purified in one-step affinity chromatography</li> <li>These proteins are normally active (enzymatically functional) as our customers have reported (not tested by us and not guaranteed).</li> <li>State-of-the-art algorithm used for plasmid design (Gene synthesis).</li> </ul>	
	This protein is a <b>made-to-order protein</b> and will be made for the first time for your order. Our	
	experts in the lab try to ensure that you receive soluble protein.	
	The big advantage of ordering our made-to-order proteins in comparison to ordering custom	
	made proteins from other companies is that there is no financial obligation in case the protein	
	cannot be expressed or purified.	
	Expression System:	
	<ul> <li>ALICE®, our Almost Living Cell-Free Expression System is based on a lysate obtained from Nicotiana tabacum c.v This contains all the protein expression machinery needed to produce even the most difficult-to-express proteins, including those that require post-translational modifications.</li> <li>During lysate production, the cell wall and other cellular components that are not required fo protein production are removed, leaving only the protein production machinery and the mitochondria to drive the reaction. During our lysate completion steps, the additional components needed for protein production (amino acids, cofactors, etc.) are added to produce something that functions like a cell, but without the constraints of a living system - all that's needed is the DNA that codes for the desired protein!</li> </ul>	
	Concentration:	
	<ul> <li>The concentration of our recombinant proteins is measured using the absorbance at 280nm</li> <li>The protein's absorbance will be measured against its specific reference buffer.</li> <li>We use the Expasy's ProtParam tool to determine the absorption coefficient of each protein.</li> </ul>	
Purification:	One-step Strep-tag purification of proteins expressed in Almost Living Cell-Free Expression System (AliCE®).	
Purity:	> 70-80 % as determined by SDS PAGE, Western Blot and analytical SEC (HPLC).	

Grade:

custom-made

Target:	SLC15A3
Alternative Name:	SLC15A3 (SLC15A3 Products)
Background:	Solute carrier family 15 member 3 (Osteoclast transporter) (Peptide transporter 3)
	(Peptide/histidine transporter 2) (hPHT2),FUNCTION: Proton-coupled amino-acid transporter
	that transports free histidine and certain di- and tripeptides, and is involved in innate immune
	response (By similarity). Also able to transport carnosine (PubMed:31073693,
	PubMed:31254495). Involved in the detection of microbial pathogens by toll-like receptors
	(TLRs) and NOD-like receptors (NLRs), probably by mediating transport of bacterial
	peptidoglycans across the endolysosomal membrane: catalyzes the transport of certain
	bacterial peptidoglycans, such as muramyl dipeptide (MDP), the NOD2 ligand (By similarity).
	{ECO:0000250 UniProtKB:Q8BPX9, ECO:0000269 PubMed:31073693,
	ECO:0000269 PubMed:31254495}.
Molecular Weight:	63.6 kDa
UniProt:	Q8IY34

Buffer:	The buffer composition is at the discretion of the manufacturer. Standard Storage Buffer: PBS pH 7.4, 10 % Glycerol <b>Might differ depending on protein.</b>
Handling Advice:	Avoid repeated freeze-thaw cycles.
Storage:	-80 °C
Storage Comment:	Store at -80°C.
Expiry Date:	12 months
