## Datasheet for ABIN3126545 SUOX Protein (AA 81-546) (His tag)

| ~     |        |
|-------|--------|
| Over  | 110111 |
| UVEIN |        |
|       |        |

| Quantity:                     | 1 mg   |
|-------------------------------|--|
| Target:                       | SUOX   |
| Protein Characteristics:      | AA 81-546  |
| Origin:                       | Mouse  |
| Source:                       | Insect Cells   |
| Protein Type:                 | Recombinant  |
| Purification tag / Conjugate: | This SUOX protein is labelled with His tag.                          |
| Application:                  | SDS-PAGE (SDS), Western Blotting (WB), ELISA, Crystallization (Crys) |

| Purity:       | >95 % as determined by SDS PAGE, Size Exclusion Chromatography and Western Blot.   |
|---------------|--|
|               | <ol> <li>Protein containing fractions of the best purification are subjected to second purification step<br/>through size exclusion chromatography. Eluate fractions are analyzed by SDS-PAGE and<br/>Western blot.</li> </ol> |
|               | different His-tag capture materials: high yield, EDTA resistant, or DTT resistant. Eluate fractions are analyzed by SDS-PAGE.  |
| Purification: | 1. In a first purification step, the protein is purified from the cleared cell lysate using three  |
|               | Two step purification of proteins expressed in baculovirus infected SF9 insect cells:  |
|               | the Expasy's protparam tool to determine the absorption coefficient of each protein.   |
|               | The concentration of the protein is calculated using its specific absorption coefficient. We use   |
|               | specific reference buffer.   |
|               | The concentration of our recombinant proteins is measured using the absorbance at 280nm.<br>The protein's absorbance will be measured in several dilutions and is measured against its   |
|               | protein experts will do everything to make sure that you receive the protein you ordered.  |
|               | folded protein. With no financial risk on your end you can rest assured that our experienced   |
|               | When you order this made-to-order protein you will only pay upon receival of the correctly   |
|               | experiments or purification optimization).   |
|               | custom-made proteins, e.g. fees might apply for the expression plasmid, the first expression   |
|               | (other companies might charge you for any performed steps in the expression process for  |
|               | In the unlikely event that the protein cannot be expressed or purified we do not charge anything   |
|               | cannot be expressed or purified.   |
|               | made proteins from other companies is that there is no financial obligation in case the protein  |
|               | The big advantage of ordering our made-to-order proteins in comparison to ordering custom  |
|               | experts in the lab will ensure that you receive a correctly folded protein.  |
|               | This protein is a made to order protein and will be made for the first time for your order. Our  |
|               | • State-of-the-art algorithm used for plasmid design (Gene synthesis).   |

| Target:           | SUOX                 |
|-------------------|----------------------|
| Alternative Name: | Suox (SUOX Products) |

## Product Details

| Target Details      |   |  |
|---------------------|---|--|
| Molecular Weight:   | 52.6 kDa Including tag.   |  |
| UniProt:            | Q8R086  |  |
| Application Details |   |  |
| Application Notes:  | In addition to the applications listed above we expect the protein to work for functional studies as well. As the protein has not been tested for functional studies yet we cannot offer a gurantee though.   |  |
| Comment:            | Protein has not been tested for activity yet. In cases in which it is highly likely that the recombinant protein with the default tag will be insoluble our protein lab may suggest a higher molecular weight tag (e.g. GST-tag) instead to increase solubility. We will discuss all possible options with you in detail to assure that you receive your protein of interest. |  |
| Restrictions:       | For Research Use only   |  |
| Handling            |   |  |
| Format:             | Liquid  |  |
| Buffer:             | 100 mM NaCL, 20 mM Hepes, 10% glycerol. pH value is at the discretion of the manufacturer.  |  |
| Handling Advice:    | Avoid repeated freeze-thaw cycles.  |  |
| Storage:            | -80 °C  |  |
| Storage Comment:    | Store at -80°C.   |  |
| Expiry Date:        | Unlimited (if stored properly)  |  |
