antibodies

Datasheet for ABIN3127804 ACCN1 Protein (AA 59-427) (His tag)

Image

Overview

Quantity:	1 mg
Target:	ACCN1
Protein Characteristics:	AA 59-427
Origin:	Mouse
Source:	Insect Cells
Protein Type:	Recombinant
Purification tag / Conjugate:	This ACCN1 protein is labelled with His tag.
Application:	Crystallization (Crys), ELISA, SDS-PAGE (SDS), Western Blotting (WB)

Product Details

Sequence:	ESSERVSYYF SYQHVTKVDE VVAQSLVFPA VTLCNLNGFR FSRLTTNDLY HAGELLALLD
	VNLQIPDPHL ADPTVLEALR QKANFKHYKP KQFSMLEFLH RVGHDLKDMM LYCKFKGQEC
	GHQDFTTVFT KYGKCYMFNS GEDGKPLLTT VKGGTGNGLE IMLDIQQDEY LPIWGETEET
	TFEAGVKVQI HSQSEPPFIQ ELGFGVAPGF QTFVATQEQR LTYLPPPWGE CRSSEMGLDF
	FPVYSITACR IDCETRYIVE NCNCRMVHMP GDAPFCTPEQ HKECAEPALG LLAEKDSNYC
	LCRTPCNLTR YNKELSMVKI PSKTSAKYLE KKFNKSEKYI SENILVLDIF FEALNYETIE
	QKKAYEVAA
	Sequence without tag. Tag location is at the discretion of the manufacturer. If you have a
	special request, please contact us.
Characteristics:	Made in Germany - from design to production - by highly experienced protein experts.
	Mouse Asic2 Protein (raised in Insect Cells) purified by multi-step, protein-specific process to
	ensure crystallization grade.

This protein is a made to order protein and will be made for the	e first time for your order. Our
experts in the lab will ensure that you receive a correctly folded	d protein.
The big advantage of ordering our made-to-order proteins in co	omparison to ordering custom
made proteins from other companies is that there is no financ	ial obligation in case the protein
cannot be expressed or purified.	
In the unlikely event that the protein cannot be expressed or pu	urified we do not charge anything
(other companies might charge you for any performed steps in	n the expression process for
custom-made proteins, e.g. fees might apply for the expressio	n plasmid, the first expression
experiments or purification optimization).	
When you order this made-to-order protein you will only pay up	oon receival of the correctly
folded protein. With no financial risk on your end you can rest	assured that our experienced
protein experts will do everything to make sure that you receive	e the protein you ordered.
The concentration of our recombinant proteins is measured us	sing the absorbance at 280nm.
The protein's absorbance will be measured in several dilutions	and is measured against its
specific reference buffer.	
The concentration of the protein is calculated using its specific	c absorption coefficient. We use
the Expasy's protparam tool to determine the absorption coeff	ficient of each protein.
Purification: Two step purification of proteins expressed in baculovirus infe	ected SF9 insect cells:
1. In a first purification step, the protein is purified from the cle	, .
different His-tag capture materials: high yield, EDTA resistar fractions are analyzed by SDS-PAGE.	nt, or DTT resistant. Eluate
2. Protein containing fractions of the best purification are subj	ected to second purification step
through size exclusion chromatography. Eluate fractions are	e analyzed by SDS-PAGE and
Western blot.	
Purity: >95 % as determined by SDS PAGE, Size Exclusion Chromatog	graphy and Western Blot.
Sterility: 0.22 µm filtered	
Endotoxin Level: Protein is endotoxin free.	
Grade: Crystallography grade	
Target Details	
Target: ACCN1	
Alternative Name: Asic2 (ACCN1 Products)	

Order at www.antibodies-online.com | www.antikoerper-online.de | www.anticorps-enligne.fr | www.antibodies-online.cn International: +49 (0)241 95 163 153 | USA & Canada: +1 877 302 8632 | support@antibodies-online.com Page 2/4 | Product datasheet for ABIN3127804 | 09/11/2023 | Copyright antibodies-online. Target Details	
Background:	Cation channel with high affinity for sodium, which is gated by extracellular protons and inhibited by the diuretic amiloride. Also permeable for Li(+) and K(+). Generates a biphasic current with a fast inactivating and a slow sustained phase. Heteromeric channel assembly seems to modulate. {ECO:0000269 PubMed:14762118}.
Molecular Weight:	43.1 kDa Including tag.
UniProt:	Q925H0
Pathways:	Sensory Perception of Sound
Application Details	
Application Notes:	In addition to the applications listed above we expect the protein to work for functional studies as well. As the protein has not been tested for functional studies yet we cannot offer a gurantee though.
Comment:	Protein has not been tested for activity yet. In cases in which it is highly likely that the recombinant protein with the default tag will be insoluble our protein lab may suggest a higher molecular weight tag (e.g. GST-tag) instead to increase solubility. We will discuss all possible options with you in detail to assure that you receive your protein of interest.
Restrictions:	For Research Use only
Handling	
Format:	Liquid
Buffer:	100 mM NaCL, 20 mM Hepes, 10% glycerol. pH value is at the discretion of the manufacturer.
Handling Advice:	Avoid repeated freeze-thaw cycles.
Storage:	-80 °C
Storage Comment:	Store at -80°C.
Expiry Date:	Unlimited (if stored properly)
