## Datasheet for ABIN3128520 BLOC1S2 Protein (AA 2-143) (His tag)

Overview

| 010111011                     |   |
|-------------------------------|---|
| Quantity:                     | 1 mg  |
| Target:                       | BLOC1S2   |
| Protein Characteristics:      | AA 2-143  |
| Origin:                       | Mouse   |
| Source:                       | Escherichia coli (E. coli)  |
| Protein Type:                 | Recombinant   |
| Purification tag / Conjugate: | This BLOC1S2 protein is labelled with His tag.  |
| Application:                  | ELISA, Western Blotting (WB), SDS-PAGE (SDS), Crystallization (Crys)  |
| Product Details               |   |
| Sequence:                     | AAAAEGVPAT RREEQPPRDD AAVETAEEAK EPAEADINEL CRDMFSKMAT YLTGELTATS   |
|                               | EDYKLLENMN KLTSLKYLEM KDIAINISRN LKDLNQKYAE LQPYLDQINM IEEQVAALEQ   |
|                               | AAYKLDAYSK KLEAKYKKLE KR  |
|                               | Sequence without tag. Tag location is at the discretion of the manufacturer. If you have a  |
|                               | special request, please contact us.   |
| Characteristics:              | <ul> <li>Made in Germany - from design to production - by highly experienced protein experts.</li> <li>Mouse Bloc1s2 Protein (raised in E. Coli) purified by multi-step, protein-specific process to ensure crystallization grade.</li> <li>State-of-the-art algorithm used for plasmid design (Gene synthesis).</li> </ul> |
|                               | This protein is a made to order protein and will be made for the first time for your order. Our   |
|                               | This protein is a made to order protein and will be made for the first time for your order. Our   |
|                               | experts in the lab will ensure that you receive a correctly folded protein.   |

| Target Details |
|----------------|
|----------------|

|                     | BLOC-1 complex, in association with SNARE proteins, is also proposed to be involved in neurite       |
|---------------------|--|
|                     | extension. Plays a role in intracellular vesicle trafficking. May play a role in cell proliferation. |
|                     | {ECO:0000269 PubMed:16760431, ECO:0000269 PubMed:19546860,   |
|                     | EC0:000269 PubMed:21998198}.   |
| Molecular Weight:   | 17.1 kDa Including tag.  |
| UniProt:            | Q9CWG9   |
| Application Details |  |
| Application Notes:  | In addition to the applications listed above we expect the protein to work for functional studies    |
|                     | as well. As the protein has not been tested for functional studies yet we cannot offer a gurantee    |
|                     | though.  |
| Comment:            | Protein has not been tested for activity yet. In cases in which it is highly likely that the         |
|                     | recombinant protein with the default tag will be insoluble our protein lab may suggest a higher      |
|                     | molecular weight tag (e.g. GST-tag) instead to increase solubility. We will discuss all possible     |
|                     | options with you in detail to assure that you receive your protein of interest.                      |
| Restrictions:       | For Research Use only  |
| Handling            |  |
| Format:             | Liquid   |
| Buffer:             | 100 mM NaCL, 20 mM Hepes, 10% glycerol. pH value is at the discretion of the manufacturer.           |
| Handling Advice:    | Avoid repeated freeze-thaw cycles.   |
| Storage:            | -80 °C   |
| Storage Comment:    | Store at -80°C.  |
| Expiry Date:        | Unlimited (if stored properly)   |
|                     |  |

**Image 1.** "Crystallography Grade" protein due to multi-step, protein-specific purification process
