## Datasheet for ABIN3129607 HEYL Protein (AA 1-326) (His tag)

Image

#### Overview

Quantity:	1 mg
Target:	HEYL
Protein Characteristics:	AA 1-326
Origin:	Mouse
Source:	Insect Cells
Protein Type:	Recombinant
Purification tag / Conjugate:	This HEYL protein is labelled with His tag.
Application:	ELISA, Western Blotting (WB), Crystallization (Crys), SDS-PAGE (SDS)

#### Product Details

Sequence:	MKRPRAPSGS DGESDGPIDV GQENDLSQMA RPLTTPSPSQ MQARKKRRGI IEKRRRDRIN
	SSLSELRRLV PTAFEKQGSS KLEKAEVLQM TVDHLKMLHA SGGTGFFDAR ALAVDFRSIG
	FRECLTEVIR YLGVLEGPSS HADPVRIRLL SHLKSYAAEM EPSPTTTSAL AFPVWPWSFL
	HSCPGLPSLN SQLAILGRVP GPVLPSISSP PYPISALRSA PVHRPAGTIP PTRRNLLPSR
	GVTSTQRAHL PERPAAPPPT ALDARAARSI VPIPPCSPTT APGAGKSDDN VSGSISSPCP
	SGPTGRPAGA VFYHSWVSEI TEIGAF
	Sequence without tag. Tag location is at the discretion of the manufacturer. If you have a
	Sequence without tag. Tag location is at the discretion of the manufacturer. If you have a special request, please contact us.
Characteristics:

Product Details	
	This protein is a made to order protein and will be made for the first time for your order. Our
	experts in the lab will ensure that you receive a correctly folded protein.
	The big advantage of ordering our made-to-order proteins in comparison to ordering custom
	made proteins from other companies is that there is no financial obligation in case the protein
	cannot be expressed or purified.
	In the unlikely event that the protein cannot be expressed or purified we do not charge anything
	(other companies might charge you for any performed steps in the expression process for
	custom-made proteins, e.g. fees might apply for the expression plasmid, the first expression
	experiments or purification optimization).
	When you order this made-to-order protein you will only pay upon receival of the correctly
	folded protein. With no financial risk on your end you can rest assured that our experienced
	protein experts will do everything to make sure that you receive the protein you ordered.
	The concentration of our recombinant proteins is measured using the absorbance at 280nm.
	The protein's absorbance will be measured in several dilutions and is measured against its
	specific reference buffer.
	The concentration of the protein is calculated using its specific absorption coefficient. We use
	the Expasy's protparam tool to determine the absorption coefficient of each protein.
Purification:	Two step purification of proteins expressed in baculovirus infected SF9 insect cells:
	1. In a first purification step, the protein is purified from the cleared cell lysate using three
	different His-tag capture materials: high yield, EDTA resistant, or DTT resistant. Eluate
	fractions are analyzed by SDS-PAGE. 2. Protein containing fractions of the best purification are subjected to second purification step
	through size exclusion chromatography. Eluate fractions are analyzed by SDS-PAGE and
	Western blot.
Purity:	>95 % as determined by SDS PAGE, Size Exclusion Chromatography and Western Blot.
Sterility:	0.22 µm filtered
Endotoxin Level:	Protein is endotoxin free.
Grade:	Crystallography grade
Target Details	
Target:	HEYL
Alternative Name:	Heyl (HEYL Products)
Background:	Transcriptional repressor which binds preferentially to the canonical E box sequence 5'-

Order at www.antibodies-online.com | www.antikoerper-online.de | www.anticorps-enligne.fr | www.antibodies-online.cn International: +49 (0)241 95 163 153 | USA & Canada: +1 877 302 8632 | support@antibodies-online.com Page 2/4 | Product datasheet for ABIN3129607 | 09/11/2023 | Copyright antibodies-online. 	CACGTG-3' (By similarity). Downstream effector of Notch signaling required for cardiovascular
	development. Specifically required for the Notch-induced endocardial epithelial to
	mesenchymal transition, which is itself criticial for cardiac valve and septum development.
	Represses transcription by the cardiac transcriptional activators GATA4 and GATA6.
	{ECO:0000250, ECO:0000269 PubMed:16199874, ECO:0000269 PubMed:17303760}.
Molecular Weight:	35.9 kDa Including tag.
UniProt:	Q9DBX7
Pathways:	Intracellular Steroid Hormone Receptor Signaling Pathway, Regulation of Intracellular Steroid
	Hormone Receptor Signaling

## Application Details

Application Notes:	In addition to the applications listed above we expect the protein to work for functional studies as well. As the protein has not been tested for functional studies yet we cannot offer a gurantee though.
Comment:	Protein has not been tested for activity yet. In cases in which it is highly likely that the recombinant protein with the default tag will be insoluble our protein lab may suggest a higher molecular weight tag (e.g. GST-tag) instead to increase solubility. We will discuss all possible options with you in detail to assure that you receive your protein of interest.
Restrictions:	For Research Use only

### Handling

Format:	Liquid
Buffer:	100 mM NaCL, 20 mM Hepes, 10% glycerol. pH value is at the discretion of the manufacturer.
Handling Advice:	Avoid repeated freeze-thaw cycles.
Storage:	-80 °C
Storage Comment:	Store at -80°C.
Expiry Date:	Unlimited (if stored properly)
