

Datasheet for ABIN3131071 PTCHD4 Protein (AA 1-904) (Strep Tag)

Overview

Quantity:	250 µg
Target:	PTCHD4
Protein Characteristics:	AA 1-904
Origin:	Mouse
Source:	Cell-free protein synthesis (CFPS)
Protein Type:	Recombinant
Purification tag / Conjugate:	This PTCHD4 protein is labelled with Strep Tag.
Application:	ELISA, SDS-PAGE (SDS), Western Blotting (WB)

Product Details

Brand:	AliCE®
Sequence:	MCFLRRPGAP ASWIWWRMLR QVLRRGLQSF CHRLGLCVSR HPVFFLTVPA VLTITFGLSA
	LNRFQTEGDL ERLVAPSHSL AKIERSLASS LFPLDQSKSQ LYSDLHTPGR YGRVILLSSP

IIASRLYLVA RTSRDKQKEV IEVLDKLRPL SLSKSIRFIV FNPSFVFTDH YSLSVTVPVL IAGFGVLLVL ILTFFLVIHP LGNFWLILSV TSIELGVLGL MTLWNVDMDC ISILCLIYTL NFAIDHCAPL LYTFVLATEH TRTQCIKSSL QEHGTAILQN ITSFLIGLLP LLFVPSNLTF TLFKCLLLTG GCTLLHCFVI LPVFLTFFPP SKKHHKKKKR AKRKEREEIE CIEIQENPDH VTTV Sequence without tag. The proposed Strep-Tag is based on experience s with the expression system, a different complexity of the protein could make another tag necessary. In case you have a special request, please contact us.

Characteristics:

Key Benefits:

- Made in Germany from design to production by highly experienced protein experts.
- Protein expressed with ALiCE® and purified in one-step affinity chromatography
- These proteins are normally active (enzymatically functional) as our customers have reported (not tested by us and not guaranteed).
- State-of-the-art algorithm used for plasmid design (Gene synthesis).

This protein is a **made-to-order protein** and will be made for the first time for your order. Our experts in the lab try to ensure that you receive soluble protein.

The big advantage of ordering our **made-to-order proteins** in comparison to ordering custom made proteins from other companies is that there is no financial obligation in case the protein cannot be expressed or purified.

Expression System:

- ALiCE®, our Almost Living Cell-Free Expression System is based on a lysate obtained from Nicotiana tabacum c.v.. This contains all the protein expression machinery needed to produce even the most difficult-to-express proteins, including those that require posttranslational modifications.
- During lysate production, the cell wall and other cellular components that are not required for
 protein production are removed, leaving only the protein production machinery and the
 mitochondria to drive the reaction. During our lysate completion steps, the additional
 components needed for protein production (amino acids, cofactors, etc.) are added to
 produce something that functions like a cell, but without the constraints of a living system all that's needed is the DNA that codes for the desired protein!

Concentration:

- The concentration of our recombinant proteins is measured using the absorbance at 280nm.
- The protein's absorbance will be measured against its specific reference buffer.
- We use the Expasy's ProtParam tool to determine the absorption coefficient of each protein.

Purification:	One-step Strep-tag purification of proteins expressed in Almost Living Cell-Free Expression
	System (AliCE®).
Purity:	> 70-80 % as determined by SDS PAGE, Western Blot and analytical SEC (HPLC).
Grade:	custom-made
Target Details	
Target:	PTCHD4
Alternative Name:	Ptchd4 (PTCHD4 Products)
Background:	Patched domain-containing protein 4,FUNCTION: Could act as a repressor of canonical
	hedgehog signaling by antagonizing the effects of SMO, as suggested by down-regulation of
	hedgehog target genes, including GLI1, PTCH1, and PTCH2 in PTCHD4-expressing cells.
	{ECO:0000250 UniProtKB:Q6ZW05}.
Molecular Weight:	103.1 kDa
UniProt:	B9EKX1
Application Details	
Application Notes:	In addition to the applications listed above we expect the protein to work for functional studies
	as well. As the protein has not been tested for functional studies yet we cannot offer a
	guarantee though.

Handling

Format:	Liquid
Buffer:	The buffer composition is at the discretion of the manufacturer. Standard Storage Buffer: PBS pH 7.4, 10 % Glycerol Might differ depending on protein.
Handling Advice:	Avoid repeated freeze-thaw cycles.
Storage:	-80 °C
Storage Comment:	Store at -80°C.
Expiry Date:	12 months
