antibodies

Datasheet for ABIN3134569 MORF4L1 Protein (AA 1-362) (His tag)

Image

Overview

| Quantity: | 1 mg |
|-------------------------------|--|
| Target: | MORF4L1 |
| Protein Characteristics: | AA 1-362 |
| Origin: | Mouse |
| Source: | Escherichia coli (E. coli) |
| Protein Type: | Recombinant |
| Purification tag / Conjugate: | This MORF4L1 protein is labelled with His tag. |
| Application: | ELISA, Western Blotting (WB), SDS-PAGE (SDS), Crystallization (Crys) |

Product Details

| Sequence: | MAPKQDPKPK FQEGERVLCF HGPLLYEAKC VKVAIKDKQV KYFIHYSGWN KKSAVRPRRS |
|------------------|---|
| | EKSLKTREDI VALFPVPEGA PSVHHPLLTS SWDEWVPESR VLKYVDTNLQ KQRELQKANQ |
| | EQYAEGKMRG AAPGKKTSGL QQKNVEVKTK KNKQKTPGNG DGGSTSETPQ PPRKKRARVD |
| | PTVENEETFM NRVEVKVKIP EELKPWLVDD WDLITRQKQL FYLPAKKNVD SILEDYANYK |
| | KSRGNTDNKE YAVNEVVAGI KEYFNVMLGT QLLYKFERPQ YAEILADHPD APMSQVYGAP |
| | HLLRLFVRIG AMLAYTPLDE KSLALLLNYL HDFLKYLAKN SATLFSASDY EVAPPEYHRK AV |
| | Sequence without tag. Tag location is at the discretion of the manufacturer. If you have a |
| | special request, please contact us. |
| Characteristics: | Made in Germany - from design to production - by highly experienced protein experts. |
| | Mouse Morf4I1 Protein (raised in E. Coli) purified by multi-step, protein-specific process to |
| | ensure crystallization grade. |
| | State-of-the-art algorithm used for plasmid design (Gene synthesis). |

| Product Details | |
|-------------------|---|
| | This protein is a made to order protein and will be made for the first time for your order. Our |
| | experts in the lab will ensure that you receive a correctly folded protein. |
| | The big advantage of ordering our made-to-order proteins in comparison to ordering custom |
| | made proteins from other companies is that there is no financial obligation in case the protein |
| | cannot be expressed or purified. |
| | In the unlikely event that the protein cannot be expressed or purified we do not charge anything |
| | (other companies might charge you for any performed steps in the expression process for |
| | custom-made proteins, e.g. fees might apply for the expression plasmid, the first expression |
| | experiments or purification optimization). |
| | When you order this made-to-order protein you will only pay upon receival of the correctly |
| | folded protein. With no financial risk on your end you can rest assured that our experienced |
| | protein experts will do everything to make sure that you receive the protein you ordered. |
| | The concentration of our recombinant proteins is measured using the absorbance at 280nm. |
| | The protein's absorbance will be measured in several dilutions and is measured against its |
| | specific reference buffer. |
| | The concentration of the protein is calculated using its specific absorption coefficient. We use |
| | the Expasy's protparam tool to determine the absorption coefficient of each protein. |
| Purification: | Two step purification of proteins expressed in bacterial culture: |
| | 1. In a first purification step, the protein is purified from the cleared cell lysate using three |
| | different His-tag capture materials: high yield, EDTA resistant, or DTT resistant. Eluate |
| | fractions are analyzed by SDS-PAGE. 2. Protein containing fractions of the best purification are subjected to second purification step |
| | through size exclusion chromatography. Eluate fractions are analyzed by SDS-PAGE and |
| | Western blot. |
| Purity: | >95 % as determined by SDS PAGE, Size Exclusion Chromatography and Western Blot. |
| Sterility: | 0.22 µm filtered |
| Endotoxin Level: | Endotoxin has not been removed. Please contact us if you require endotoxin removal. |
| Grade: | Crystallography grade |
| | |
| Target Details | |
| Target: | MORF4L1 |
| Alternative Name: | Morf4l1 (MORF4L1 Products) |

Background: Component of the NuA4 histone acetyltransferase complex which is involved in transcriptional

Order at www.antibodies-online.com | www.antikoerper-online.de | www.anticorps-enligne.fr | www.antibodies-online.cn International: +49 (0)241 95 163 153 | USA & Canada: +1 877 302 8632 | support@antibodies-online.com Page 2/4 | Product datasheet for ABIN3134569 | 09/11/2023 | Copyright antibodies-online. | | activation of select genes principally by acetylation of nucleosomal histones H4 and H2A. This |
|---------------------|---|
| | modification may both alter nucleosome - DNA interactions and promote interaction of the |
| | modified histones with other proteins which positively regulate transcription. This complex may |
| | be required for the activation of transcriptional programs associated with oncogene and proto- |
| | oncogene mediated growth induction, tumor suppressor mediated growth arrest and replicative |
| | senescence, apoptosis, and DNA repair. The NuA4 complex ATPase and helicase activities |
| | seem to be, at least in part, contributed by the association of RUVBL1 and RUVBL2 with EP400. |
| | NuA4 may also play a direct role in DNA repair when directly recruited to sites of DNA damage. |
| | Also component of the mSin3A complex which acts to repress transcription by deacetylation of |
| | nucleosomal histones. Required for homologous recombination repair (HRR) and resistance to |
| | mitomycin C (MMC). Involved in the localization of PALB2, BRCA2 and RAD51, but not BRCA1, |
| | to DNA-damage foci (By similarity). {ECO:0000250}. |
| Molecular Weight: | 42.4 kDa Including tag. |
| UniProt: | P60762 |
| Pathways: | Chromatin Binding |
| | |
| Application Details | |
| Application Notes: | In addition to the applications listed above we expect the protein to work for functional studies |
| | as well. As the protein has not been tested for functional studies yet we cannot offer a gurantee |

| | though. |
|----------|--|
| Comment: | Protein has not been tested for activity yet. In cases in which it is highly likely that the |
| | recombinant protein with the default tag will be insoluble our protein lab may suggest a higher |
| | molecular weight tag (e.g. GST-tag) instead to increase solubility. We will discuss all possible |
| | options with you in detail to assure that you receive your protein of interest. |
| | |

Restrictions:

For Research Use only

Handling

| Format: | Liquid |
|------------------|--|
| Buffer: | 100 mM NaCL, 20 mM Hepes, 10% glycerol. pH value is at the discretion of the manufacturer. |
| Handling Advice: | Avoid repeated freeze-thaw cycles. |
| Storage: | -80 °C |
| Storage Comment: | Store at -80°C. |
