Datasheet for ABIN3137061 MTR4 Protein (AA 2-1040) (His tag)

I Image

Overview

Quantity:	1 mg
Target:	MTR4 (SKIV2L2)
Protein Characteristics:	AA 2-1040
Origin:	Mouse
Source:	Insect Cells
Protein Type:	Recombinant
Purification tag / Conjugate:	This MTR4 protein is labelled with His tag.
Application:	Crystallization (Crys), ELISA, SDS-PAGE (SDS), Western Blotting (WB)

Product Details

Sequence:	ADAFGDELFS VFEDDSTSAA GAKKDKEKEK WKGPPGSADK AGKRLDTKLQ SESASGGKNK

	Sequence without tag. Tag location is at the discretion of the manufacturer. If you have a
	special request, please contact us.
Characteristics:	 Made in Germany - from design to production - by highly experienced protein experts. Mouse Skiv2l2 Protein (raised in Insect Cells) purified by multi-step, protein-specific process to ensure crystallization grade. State-of-the-art algorithm used for plasmid design (Gene synthesis).
	This protain is a made to order protein and will be made for the first time for your order. Our
	This protein is a made to order protein and will be made for the first time for your order. Our experts in the lab will ensure that you receive a correctly folded protein.
	The big advantage of ordering our made-to-order proteins in comparison to ordering custom
	made proteins from other companies is that there is no financial obligation in case the protein
	cannot be expressed or purified.
	In the unlikely event that the protein cannot be expressed or purified we do not charge anything
	(other companies might charge you for any performed steps in the expression process for
	custom-made proteins, e.g. fees might apply for the expression plasmid, the first expression
	experiments or purification optimization).
	When you order this made-to-order protein you will only pay upon receival of the correctly
	folded protein. With no financial risk on your end you can rest assured that our experienced
	protein experts will do everything to make sure that you receive the protein you ordered.
	The concentration of our recombinant proteins is measured using the absorbance at 280nm.
	The protein's absorbance will be measured in several dilutions and is measured against its
	specific reference buffer.
	The concentration of the protein is calculated using its specific absorption coefficient. We use
	the Expasy's protparam tool to determine the absorption coefficient of each protein.
Purification:	Two step purification of proteins expressed in baculovirus infected SF9 insect cells:
	 In a first purification step, the protein is purified from the cleared cell lysate using three different His-tag capture materials: high yield, EDTA resistant, or DTT resistant. Eluate fractions are analyzed by SDS-PAGE.
	 Protein containing fractions of the best purification are subjected to second purification step through size exclusion chromatography. Eluate fractions are analyzed by SDS-PAGE and Western blot.

Purity: >>95 % as determined by SDS PAGE, Size Exclusion Chrometography and Western Blot. Sterility: 0.22 µm filtered Endotoxin Level: Protein is endotoxin free. Grade: Orystallography grade Target Details Target. Target. MTR4 (SKIV2L2) Alternative Name: Skiv212 (SKIV2L2 Products) Background: May be involved in pre-mRNA splicing, Associated with the RNA excosome complex and involved in pre-mRNA splicing Associated with the RNA excosome complex and involved in the 3'-processing of the /S pre-RNA to the mature 5.85 rRNA (By similarity). (rCO.0000250). Molecular Weight: 118.5 KDa including tag. UniProt: Q9C21/3 Application Notes: In addition to the applications listed above we expect the protein to work for functional studies as well. As the protein has not been tested for functional studies yet we cannot offer a gurantee though. Comment: Protein has not been tested for activity yet. In cases in which it is highly likely that the recombinant protein with the default tag will be insoluble our protein lab may suggest a higher molecular weight tag (e.g. GST-tag) instead to increase solubility. We will discuss all possible options with you in detail to assure that you receive your protein of interest. Restrictions: For Research Use only. Handling I// guid Buffer:	Product Details	
Endotoxin Level: Protein is endotoxin free. Grade: Crystallography grade Target Details Target. Target. MTR4 (SKIV21.2) Atternative Name: Skiv212 (SKIV21.2 Products) Background: May be involved in pre-mRNA splicing. Associated with the RNA exosome complex and involved in the 3 ^r processing of the 7S pre-RNA to the mature 5.8S rRNA (By similarity). (ECO 0000250). Molecular Weight: 118.5 kDa Including tag. UniProt: Q9C2U3 Application Details In addition to the applications listed above we expect the protein to work for functional studies as well. As the protein has not been tested for functional studies yet we cannot offer a gurantee though. Comment: Protein has not been tested for activity yet. In cases in which it is highly likely that the recombinant protein with the default tag will be insoluble our protein lab may suggest a higher molecular weight tag (e.g. GST-tag) instead to increase solubility. We will discuss all possible options with you in detail to assure that you receive your protein of interest. Restrictions: For Research Use only Handling Liquid Buffer: 100 mM NaCl. 20 mM Hepes, 10% glycerol. pH value is at the discretion of the manufacturer. Handling Advice: Avoid repeated freeze-thaw cycles.	Purity:	>95 % as determined by SDS PAGE, Size Exclusion Chromatography and Western Blot.
Grade: Crystallography grade Target Details Target: Target: MTR4 (SKIV2L2) Alternative Name: SkiV2L2 (Products) Background: May be involved in pre-mRNA splicing. Associated with the RNA exosome complex and involved in the 3 ⁻ processing of the 75 pre-RNA to the mature 5.85 (RNA (By similarity). (ECC 0000250). Molecular Weight: 118.5 kDa including tag. UniProt: Q9C2U3 Application Notes: In addition to the applications listed above we expect the protein to work for functional studies as well. As the protein has not been tested for functional studies yet we cannot offer a gurantee though. Comment: Protein has not been tested for activity yet.
