Datasheet for ABIN3137314 IL36A/IL1F6 Protein (AA 8-160) (His tag)

Overview

Image

overview		
Quantity:	1 mg	
Target:	IL36A/IL1F6 (IL1F6)	
Protein Characteristics:	AA 8-160	
Origin:	Mouse	
Source:	Insect Cells	
Protein Type:	Recombinant	
Purification tag / Conjugate:	This IL36A/IL1F6 protein is labelled with His tag.	
Application:	ELISA, Western Blotting (WB), SDS-PAGE (SDS), Crystallization (Crys)	
Product Details		
Sequence:	RAASPSLRHV QDLSSRVWIL QNNILTAVPR KEQTVPVTIT LLPCQYLDTL ETNRGDPTYM	
	GVQRPMSCLF CTKDGEQPVL QLGEGNIMEM YNKKEPVKAS LFYHKKSGTT STFESAAFPG	
	WFIAVCSKGS CPLILTQELG EIFITDFEMI VVH	
	Sequence without tag. Tag location is at the discretion of the manufacturer. If you have a	
	special request, please contact us.	
Characteristics:	 Made in Germany - from design to production - by highly experienced protein experts. Mouse II36a Protein (raised in Insect Cells) purified by multi-step, protein-specific process to ensure crystallization grade. State-of-the-art algorithm used for plasmid design (Gene synthesis). 	
	This protein is a made to order protein and will be made for the first time for your order. Our	
	This protein is a made to order protein and will be made for the first time for your order. Our experts in the lab will ensure that you receive a correctly folded protein.	

Order at www.antibodies-online.com | www.antikoerper-online.de | www.anticorps-enligne.fr | www.antibodies-online.cn International: +49 (0)241 95 163 153 | USA & Canada: +1 877 302 8632 | support@antibodies-online.com Page 1/4 | Product datasheet for ABIN3137314 | 09/11/2023 | Copyright antibodies-online. 	made proteins from other companies is that there is no financial obligation in case the protein	
	cannot be expressed or purified.	
	In the unlikely event that the protein cannot be expressed or purified we do not charge anything	
	(other companies might charge you for any performed steps in the expression process for	
	custom-made proteins, e.g. fees might apply for the expression plasmid, the first expression	
	experiments or purification optimization).	
	When you order this made-to-order protein you will only pay upon receival of the correctly	
	folded protein. With no financial risk on your end you can rest assured that our experienced	
	protein experts will do everything to make sure that you receive the protein you ordered.	
	The concentration of our recombinant proteins is measured using the absorbance at 280nm.	
	The protein's absorbance will be measured in several dilutions and is measured against its	
	specific reference buffer.	
	The concentration of the protein is calculated using its specific absorption coefficient. We use	
	the Expasy's protparam tool to determine the absorption coefficient of each protein.	
Purification:	Two step purification of proteins expressed in baculovirus infected SF9 insect cells:	
	 In a first purification step, the protein is purified from the cleared cell lysate using three different His-tag capture materials: high yield, EDTA resistant, or DTT resistant. Eluate fractions are analyzed by SDS-PAGE. 	
	 Protein containing fractions of the best purification are subjected to second purification step through size exclusion chromatography. Eluate fractions are analyzed by SDS-PAGE and Western blot. 	
^D urity:	>95 % as determined by SDS PAGE, Size Exclusion Chromatography and Western Blot.	
Sterility:	0.22 µm filtered	
Endotoxin Level:	Protein is endotoxin free.	
Grade:	Crystallography grade	
Target Details		
Target:	IL36A/IL1F6 (IL1F6)	
Alternative Name:	II36a (IL1F6 Products)	
Background:	Cytokine that binds to and signals through the IL1RL2/IL-36R receptor which in turn activates	
	NF-kappa-B and MAPK signaling pathways in target cells linked to a pro-inflammatory	
	response. Part of the IL-36 signaling system that is thought to be present in epithelial barriers	

Order at www.antibodies-online.com | www.antikoerper-online.de | www.anticorps-enligne.fr | www.antibodies-online.cn International: +49 (0)241 95 163 153 | USA & Canada: +1 877 302 8632 | support@antibodies-online.com Page 2/4 | Product datasheet for ABIN3137314 | 09/11/2023 | Copyright antibodies-online. 	the coreceptor IL1RAP. Seems to be involved in skin inflammatory response by acting on		
	keratinocytes, dendritic cells and indirectly on T-cells to drive tissue infiltration, cell maturation		
	and cell proliferation. Induces the production of proinflammatory cytokines, including IL-12, Il-1		
	beta, IL-6, TNF-alpha and IL-23 in bone marrow-derived dendritic cells (BMDCs). Involved in		
	dendritic cell maturation by stimulating the surface expression of CD80, CD86 and MHC class		
	II. Induces the production of IFN-gamma, IL-4 and IL-17 by cultured CD4(+) T-cells and		
	splenocytes. May play a role in proinflammatory effects in the lung: induces the expression of		
	CXCL1 and CXCL2 in the lung, and the expression of TNF-alpha, IL-36c, IL-1A, IL-1B, CXCL1 and		
	CXCL2 in isolated splenic CD11c(+) alveolar macrophages. May be involved in T-cell maturation		
	by stimulating the surface expression of CD40 and modestly CD80 and CD86 in splenic		
	CD11c(+) cells. May be involved in CD4(+) T-cell proliferation. Induces NF-kappa B activation in		
	macrophages. {EC0:0000269 PubMed:21860022, EC0:0000269 PubMed:21965679,		
	ECO:0000269 PubMed:23029241, ECO:0000269 PubMed:24829417}.		
Molecular Weight:	18.1 kDa Including tag.		
UniProt:	Q9JLA2		
Pathways:	Cancer Immune Checkpoints		

Application Details

Application Notes:	In addition to the applications listed above we expect the protein to work for functional studies as well. As the protein has not been tested for functional studies yet we cannot offer a gurantee though.
Comment:	Protein has not been tested for activity yet. In cases in which it is highly likely that the recombinant protein with the default tag will be insoluble our protein lab may suggest a higher molecular weight tag (e.g. GST-tag) instead to increase solubility. We will discuss all possible options with you in detail to assure that you receive your protein of interest.
Restrictions:	For Research Use only

Handling

Format:	Liquid
Buffer:	100 mM NaCL, 20 mM Hepes, 10% glycerol. pH value is at the discretion of the manufacturer.
Handling Advice:	Avoid repeated freeze-thaw cycles.
Storage:	-80 °C
