## Overview

|                      |                                                                                   |
|----------------------|-----------------------------------------------------------------------------------|
| Quantity:            | 100 µL                                                                            |
| Target:              | BCL2L1                                                                            |
| Binding Specificity: | Ser174                                                                            |
| Reactivity:          | Human, Mouse, Rat                                                                 |
| Host:                | Rabbit                                                                            |
| Clonality:           | Polyclonal                                                                        |
| Conjugate:           | This BCL2L1 antibody is un-conjugated                                             |
| Application:         | Western Blotting (WB), Immunohistochemistry (IHC), ELISA, Immunofluorescence (IF) |

## Product Details

|                  |                                                                                                                       |
|------------------|-----------------------------------------------------------------------------------------------------------------------|
| Immunogen:       | Synthesized peptide derived from human Bcl-x around the non-phosphorylation site of T47.                              |
| Isotype:         | IgG                                                                                                                   |
| Specificity:     | Bcl-x Polyclonal Antibody detects endogenous levels of Bcl-x protein.                                                 |
| Characteristics: | Rabbit Polyclonal to Bcl-x.                                                                                           |
| Purification:    | The antibody was affinity-purified from rabbit antiserum by affinity-chromatography using epitope-specific immunogen. |

## Target Details

|                   |                                           |
|-------------------|-------------------------------------------|
| Target:           | BCL2L1                                    |
| Alternative Name: | Bcl-X ( <a href="#">BCL2L1 Products</a> ) |

## Target Details

|                   |                                                                                                  |
|-------------------|--------------------------------------------------------------------------------------------------|
| Molecular Weight: | 23 kDa                                                                                           |
| Gene ID:          | 598                                                                                              |
| UniProt:          | <a href="#">Q07817</a>                                                                           |
| Pathways:         | <a href="#">Apoptosis</a> , <a href="#">Negative Regulation of intrinsic apoptotic Signaling</a> |

## Application Details

|                    |                                                                  |
|--------------------|------------------------------------------------------------------|
| Application Notes: | WB 1:500-1:2000, IHC 1:100-1:300, IF 1:200-1:1000, ELISA 1:5000, |
| Restrictions:      | For Research Use only                                            |

## Handling

|                    |                                                                                                                        |
|--------------------|------------------------------------------------------------------------------------------------------------------------|
| Format:            | Liquid                                                                                                                 |
| Concentration:     | 1 mg/mL                                                                                                                |
| Buffer:            | Liquid in PBS containing 50 % glycerol, 0.5 % BSA and 0.02 % sodium azide.                                             |
| Preservative:      | Sodium azide                                                                                                           |
| Precaution of Use: | This product contains Sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only. |
| Handling Advice:   | Avoid repeated freeze/thaw cycles.                                                                                     |
| Storage:           | -20 °C                                                                                                                 |
| Storage Comment:   | Store at -20°C.                                                                                                        |
