## Overview

|                      |                                                                                   |
|----------------------|-----------------------------------------------------------------------------------|
| Quantity:            | 100 µL                                                                            |
| Target:              | T-Box 15/18 (TBX15/18)                                                            |
| Binding Specificity: | Internal Region                                                                   |
| Reactivity:          | Human, Mouse                                                                      |
| Host:                | Rabbit                                                                            |
| Clonality:           | Polyclonal                                                                        |
| Conjugate:           | This T-Box 15/18 antibody is un-conjugated                                        |
| Application:         | Western Blotting (WB), Immunohistochemistry (IHC), Immunofluorescence (IF), ELISA |

## Product Details

|                  |                                                                                                                       |
|------------------|-----------------------------------------------------------------------------------------------------------------------|
| Immunogen:       | Synthesized peptide derived from the Internal region of human TBX15/18.                                               |
| Isotype:         | IgG                                                                                                                   |
| Specificity:     | TBX15/18 Polyclonal Antibody detects endogenous levels of TBX15/18 protein.                                           |
| Characteristics: | Rabbit Polyclonal to TBX15/18.                                                                                        |
| Purification:    | The antibody was affinity-purified from rabbit antiserum by affinity-chromatography using epitope-specific immunogen. |

## Target Details

|                   |                                                |
|-------------------|------------------------------------------------|
| Target:           | T-Box 15/18 (TBX15/18)                         |
| Alternative Name: | TBX15/18 ( <a href="#">TBX15/18 Products</a> ) |

Target Details

|                   |                                                 |
|-------------------|-------------------------------------------------|
| Molecular Weight: | 64 kDa                                          |
| Gene ID:          | 9096                                            |
| UniProt:          | <a href="#">O95935</a> , <a href="#">Q96SF7</a> |

Application Details

|                    |                                                                   |
|--------------------|-------------------------------------------------------------------|
| Application Notes: | WB 1:500-1:2000, IHC 1:100-1:300, IF 1:200-1:1000, ELISA 1:20000, |
| Restrictions:      | For Research Use only                                             |

Handling

|                    |                                                                                                                        |
|--------------------|------------------------------------------------------------------------------------------------------------------------|
| Format:            | Liquid                                                                                                                 |
| Concentration:     | 1 mg/mL                                                                                                                |
| Buffer:            | Liquid in PBS containing 50 % glycerol, 0.5 % BSA and 0.02 % sodium azide.                                             |
| Preservative:      | Sodium azide                                                                                                           |
| Precaution of Use: | This product contains Sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only. |
| Handling Advice:   | Avoid repeated freeze/thaw cycles.                                                                                     |
| Storage:           | -20 °C                                                                                                                 |
| Storage Comment:   | Store at -20°C.                                                                                                        |
