## Overview

|                      |                                        |
|----------------------|----------------------------------------|
| Quantity:            | 100 µg                                 |
| Target:              | DcR2 (TNFRSF10D)                       |
| Binding Specificity: | N-Term                                 |
| Reactivity:          | Human                                  |
| Host:                | Mouse                                  |
| Clonality:           | Monoclonal                             |
| Conjugate:           | This DcR2 antibody is conjugated to PE |
| Application:         | Flow Cytometry (FACS)                  |

## Product Details

|               |                                                                                                                              |
|---------------|------------------------------------------------------------------------------------------------------------------------------|
| Immunogen:    | Recombinant hIgG heavy chain-tagged protein fragment corresponding to the N-terminus (first 210 residues) of human TRAIL-R4. |
| Clone:        | TRAIL-R4-01                                                                                                                  |
| Isotype:      | IgG1                                                                                                                         |
| Specificity:  | Reacts with human CD264 / TRAIL-R4                                                                                           |
| Purification: | Purified (liquid chromatography)                                                                                             |

## Target Details

|                   |                                                         |
|-------------------|---------------------------------------------------------|
| Target:           | DcR2 (TNFRSF10D)                                        |
| Alternative Name: | CD264 / TRAIL-R4 ( <a href="#">TNFRSF10D Products</a> ) |

## Target Details

Gene ID: 8793

Pathways: [Apoptosis](#)

## Application Details

Application Notes: Working dilution: Optimal dilutions should be determined by the end user.  
The following are guidelines only:  
- FC: 3 µg/mL

Restrictions: For Research Use only

## Handling

Format: Liquid

Buffer: PBS, BSA 0.2 % (w/v), Sodium azide 15 mM

Preservative: Sodium azide

Precaution of Use: This product contains Sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only.

Storage: 4 °C

Storage Comment: Store in the dark at 2-8°C. Do not freeze. Avoid prolonged exposure to light.
