Datasheet for ABIN3222466  
**anti-GTP-Binding Protein antibody**

### Overview

Quantity:	100 µg
Target:	GTP-Binding Protein (MGB)
Reactivity:	Human, Mouse, Rat
Host:	Rabbit
Conjugate:	This GTP-Binding Protein antibody is un-conjugated
Application:	ELISA, Western Blotting (WB)

### Product Details

Immunogen:	Purified rabbit polyclonal antibody raised against E.coli expressed recombinant protein MGB as immunogen.
Specificity:	Anti-MGB recognizes MGB expression in HepG2 whole cell lysate.

### Target Details

Target:	GTP-Binding Protein (MGB)
Alternative Name:	MGB ( <a href="#">MGB Products</a> )
Background:	Antigen: Recombinant protein corresponding to full length MGB.
UniProt:	<a href="#">P02144</a>

### Application Details

Restrictions:	For Research Use only
---------------	-----------------------

## Handling

---

Format:	Liquid
Buffer:	Each vial contains 100 µl serum.
Storage:	-20 °C
