

Datasheet for ABIN3222467 **anti-CKB antibody**

[Go to Product page](#)

Overview

Quantity:	100 µg
Target:	CKB
Reactivity:	Human, Mouse, Rat
Host:	Rabbit
Conjugate:	This CKB antibody is un-conjugated
Application:	Western Blotting (WB), ELISA

Product Details

Immunogen:	Purified rabbit polyclonal antibody raised against E.coli expressed recombinant protein CKB as immunogen.
Specificity:	Anti-CKB recognizes CKB expression in HEK293 whole cell lysate.

Target Details

Target:	CKB
Alternative Name:	CKB (CKB Products)
Background:	Antigen: Recombinant protein corresponding to full length CKB.
UniProt:	P12277

Application Details

Restrictions:	For Research Use only
---------------	-----------------------

Handling

Format:	Liquid
Buffer:	Each vial contains 100 µl serum.
Storage:	-20 °C
