Datasheet for ABIN334528
anti-HBSAg antibody

Overview

Quantity:	0.1 mg
Target:	HBSAg (HBsAg)
Reactivity:	Hepatitis B Virus (HBV)
Host:	Rabbit
Clonality:	Polyclonal
Conjugate:	This HBSAg antibody is un-conjugated
Application:	Enzyme Immunoassay (EIA)

Product Details

Immunogen:	Hepatitis B virus surface antigen
Specificity:	Native Hepatitis B virus surface antigen (HBsAg). No affinity to human serum proteins
Purification:	Antigen is native HbsAg. Purification by affinity chromatography using immobilized recombinant HBsAg

Target Details

Target:	HBSAg (HBsAg)
Alternative Name:	Hepatitis B Virus Surface Antigen (HBsAg Products)
Target Type:	Viral Protein
Background:	Rabbit anti-Hepatitis B virus surface antigen (HbsAg) polyclonal antibody, Unconjugated

Application Details

Restrictions: For Research Use only

Handling

Format: Lyophilized

Storage: -20 °C
