Target:

Quantity:	0.4 mL
Target:	USP14
Binding Specificity:	N-Term
Reactivity:	Human
Host:	Rabbit
Clonality:	Polyclonal
Conjugate:	This USP14 antibody is un-conjugated
Application:	Western Blotting (WB), Immunohistochemistry (Paraffin-embedded Sections) (IHC (p)), Enzyme Immunoassay (EIA)
Product Details	
Immunogen:	This antibody is generated from rabbits immunized with a KLH conjugated synthetic peptide selected from the N-terminal region of human USP14.
Isotype:	lg Fraction
Specificity:	This antibody is specific to USP14 (N-term). Predicted to cross react with Mouse (100 % Antigen Homology).
Purification:	Protein G Chromatography, eluted with high and low pH buffers and neutralized immediately, followed by dialysis against PBS.
Target Details	

USP14

Target Details

Alternative Name:	USP14 (USP14 Products)
Background:	Modification of target proteins by ubiquitin participates in a wide array of biological functions.
	Proteins destined for degradation or processing via the 26 S proteasome are coupled to
	multiple copies of ubiquitin. However, attachment of ubiquitin or ubiquitin-related molecules
	may also result in changes in subcellular distribution or modification of protein activity. An
	additional level of ubiquitin regulation, deubiquitination, is catalyzed by proteases called
	deubiquitinating enzymes, which fall into four distinct families. Ubiquitin C-terminal hydrolases,
	ubiquitin-specific processing proteases (USPs),1 OTU-domain ubiquitin-aldehyde-binding
	proteins, and Jab1/Pad1/MPN-domain-containing metallo-enzymes. Among these four
	families, USPs represent the most widespread and represented deubiquitinating enzymes
	across evolution. USPs tend to release ubiquitin from a conjugated protein. They display similar
	catalytic domains containing conserved Cys and His boxes but divergent N-terminal and
	occasionally C-terminal extensions, which are thought to function in substrate recognition,
	subcellular localization, and protein-protein interactions. Synonyms: Deubiquitinating enzyme
	14, TGT, Ubiquitin carboxyl-terminal hydrolase 14, Ubiquitin thioesterase 14, Ubiquitin-specific-processing protease 14
Molecular Weight:	55938 Da
Gene ID:	9097, 5874
UniProt:	P54578
Application Details	
Application Notes:	ELISA: 1/1,000. Western Blot: 1/100-1/500. Immunohistochemistry: 1/50-1/100.
	Other applications not tested.
	Optimal dilutions are dependent on conditions and should be determined by the user.
Restrictions:	For Research Use only
Handling	
Format:	Liquid
Concentration:	0.25 mg/mL
Buffer:	PBS with 0.09 % (W/V) Sodium Azide as preservative.
Preservative:	Sodium azide
Precaution of Use:	This product contains sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which

Handling

	should be handled by trained staff only.
Handling Advice:	Avoid repeated freezing and thawing.
Storage:	4 °C/-20 °C
Storage Comment:	Store the antibody undiluted at 2-8 °C for one month or (in aliquots) at-20 °C for longer.
