( )\	<b>/</b> e	rVI	iew

Quantity:	0.4 mL
Target:	TIE1
Binding Specificity:	N-Term
Reactivity:	Human, Mouse
Host:	Rabbit
Clonality:	Polyclonal
Conjugate:	This TIE1 antibody is un-conjugated
Application:	Western Blotting (WB), Immunohistochemistry (Paraffin-embedded Sections) (IHC (p)), Enzyme Immunoassay (EIA)
Product Details	
Immunogen:	This antibody is generated from rabbits immunized with a KLH conjugated synthetic peptide selected from the N-terminal region of human TIE.
Isotype:	lg Fraction
Specificity:	This antibody detects TIE1 at N-term.
Purification:	Protein G Chromatography eluted with high and low pH buffers and neutralized immediately, followed by dialysis against PBS.
Target Details	
Target:	TIE1
Alternative Name:	TIE1 (TIE1 Products)

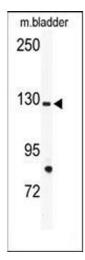

#### Target Details

Background:	Protein kinases are enzymes that transfer a phosphate group from a phosphate donor,	
	generally the g phosphate of ATP, onto an acceptor amino acid in a substrate protein. By this	
	basic mechanism, protein kinases mediate most of the signal transduction in eukaryotic cells,	
	regulating cellular metabolism, transcription, cell cycle progression, cytoskeletal rearrangement	
	and cell movement, apoptosis, and differentiation. With more than 500 gene products, the	
	protein kinase family is one of the largest families of proteins in eukaryotes. The family has	
	been classified in 8 major groups based on sequence comparison of their tyrosine (PTK) or	
	serine/threonine (STK) kinase catalytic domains. The tyrosine kinase (TK) group is mainly	
	involved in the regulation of cell-cell interactions such as differentiation, adhesion, motility and	
	death. There are currently about 90 TK genes sequenced, 58 are of receptor protein TK (e.g.	
	EGFR, EPH, FGFR, PDGFR, TRK, and VEGFR families), and 32 of cytosolic TK (e.g. ABL, FAK,	
	JAK, and SRC families).Synonyms: TIE, Tie-1, Tyrosine-protein kinase receptor Tie-1	
Molecular Weight:	125089 Da	
Gene ID:	7075, 9606	
UniProt:	P35590	
Pathways:	RTK Signaling	
Application Details		
Application Notes:	ELISA: 1/1,000. Western blotting: 1/100-1/500. Immunohistochemistry: 1/10-1/50.	
	Other applications not tested.	
	Optimal dilutions are dependent on conditions and should be determined by the user.	
Restrictions:	For Research Use only	
Handling		
Format:	Liquid	
Concentration:	0.25 mg/mL	
Buffer:	PBS with 0.09 % (W/V) Sodium Azide as preservative	
Preservative:	Sodium azide	
Precaution of Use:	This product contains sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which	
	should be handled by trained staff only.	
Handling Advice:	Avoid repeated freezing and thawing.	

### Handling

Storage:	4 °C/-20 °C
Storage Comment:	Store the antibody undiluted at 2-8 °C for one month or (in aliquots) at-20 °C for longer.
