	Ve.	rv	iew

Quantity:	0.4 mL	
Target:	PFKFB2	
Binding Specificity:	N-Term	
Reactivity:	Human	
Host:	Rabbit	
Clonality:	Polyclonal	
Conjugate:	This PFKFB2 antibody is un-conjugated	
Application:	Western Blotting (WB), Immunohistochemistry (Paraffin-embedded Sections) (IHC (p)), Enzyme Immunoassay (EIA)	
Product Details		
Immunogen:	This antibody is generated from rabbits immunized with a KLH conjugated synthetic peptide selected from the N-terminal region of human PFKFB2.	
Isotype:	Ig Fraction	
Specificity:	This antibody reacts to PFKFB2.	
Purification:	Protein G column, eluted with high and low pH buffers and neutralized immediately, followed by dialysis against PBS	
Target Details		
Target:	PFKFB2	
Alternative Name:	PFKFB2 (PFKFB2 Products)	

Target Details

Background:	Protein kinases are enzymes that transfer a phosphate group from a phosphate donor,	
	generally the g phosphate of ATP, onto an acceptor amino acid in a substrate protein. By this	
	basic mechanism, protein kinases mediate most of the signal transduction in eukaryotic cells,	
	regulating cellular metabolism, transcription, cell cycle progression, cytoskeletal rearrangement	
	and cell movement, apoptosis, and differentiation. With more than 500 gene products, the	
	protein kinase family is one of the largest families of proteins in eukaryotes. The family has	
	been classified in 8 major groups based on sequence comparison of their tyrosine (PTK) or	
	serine/threonine (STK) kinase catalytic domains. The AGC kinase group consists of 63 kinases	
	including the cyclic nucleotide-regulated protein kinase (PKA & PKG) family, the diacylglycerol-	
	activated/phospholipid-dependent protein kinase C (PKC) family, the related to PKA and PKC	
	(RAC/Akt) protein kinase family, the kinases that phosphorylate G protein-coupled receptors	
	family (ARK), and the kinases that phosphorylate ribosomal protein S6 family (RSK). Synonyms:	
	6-biphosphatase 2, 6-phosphofructo-2-kinase/fructose-2, PFK-2/FBPase-2, PFK/FBPase 2,	
	PFKFB cardiac	
Gene ID:	5208, 9606	
UniProt:	060825	
Pathways:	PI3K-Akt Signaling, Positive Regulation of Peptide Hormone Secretion, Regulation of	
	Carbohydrate Metabolic Process	
Application Details		
Application Notes:	ELISA: 1/1,000. Western blotting: 1/100 - 1/500. Immunohistochemistry: 1/50 - 1/100.	
	Other applications not tested.	
	Optimal dilutions are dependent on conditions and should be determined by the user.	
Restrictions:	For Research Use only	
Handling		
Format:	Liquid	
Concentration:	0.25 mg/mL	
Buffer:	PBS with 0.09 % (W/V) sodium azide	
Preservative:	Sodium azide	
Precaution of Use:	This product contains sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which	

Handling

Handling Advice:	Avoid repeated freezing and thawing.	
Storage:	4 °C/-20 °C	
Storage Comment:	Store the antibody undiluted at 2-8 °C for one month or (in aliquots) at-20 °C for longer.
