# Datasheet for ABIN388880 anti-USP3 antibody (N-Term)

2 Images

#### Overview

| Quantity:            | 400 µL   |
|----------------------|--|
| Target:              | USP3   |
| Binding Specificity: | AA 114-143, N-Term   |
| Reactivity:          | Human  |
| Host:                | Rabbit   |
| Clonality:           | Polyclonal   |
| Conjugate:           | This USP3 antibody is un-conjugated  |
| Application:         | Western Blotting (WB), Immunohistochemistry (Paraffin-embedded Sections) (IHC (p)) |

## Product Details

| Immunogen:    | This USP3 antibody is generated from rabbits immunized with a KLH conjugated synthetic peptide between 114-143 amino acids from the N-terminal region of human USP3. |
|---------------|--|
| Clone:        | RB4205-4206  |
| Isotype:      | Ig Fraction  |
| Purification: | This antibody is prepared by Saturated Ammonium Sulfate (SAS) precipitation followed by dialysis against PBS.  |

### Target Details

| Target:           | USP3                 |
|-------------------|----------------------|
| Alternative Name: | USP3 (USP3 Products) |

## Target Details

| Background:       | Modification of target proteins by ubiquitin participates in a wide array of biological functions. |
|-------------------|--|
|                   | Proteins destined for degradation or processing via the 26 S proteasome are coupled to             |
|                   | multiple copies of ubiquitin. However, attachment of ubiquitin or ubiquitin-related molecules      |
|                   | may also result in changes in subcellular distribution or modification of protein activity. An     |
|                   | additional level of ubiquitin regulation, deubiquitination, is catalyzed by proteases called       |
|                   | deubiquitinating enzymes, which fall into four distinct families. Ubiquitin C-terminal hydrolases, |
|                   | ubiquitin-specific processing proteases (USPs),1 OTU-domain ubiquitin-aldehyde-binding             |
|                   | proteins, and Jab1/Pad1/MPN-domain-containing metallo-enzymes. Among these four                    |
|                   | families, USPs represent the most widespread and represented deubiquitinating enzymes              |
|                   | across evolution. USPs tend to release ubiquitin from a conjugated protein. They display similar   |
|                   | catalytic domains containing conserved Cys and His boxes but divergent N-terminal and              |
|                   | occasionally C-terminal extensions, which are thought to function in substrate recognition,        |
|                   | subcellular localization, and protein-protein interactions.  |
| Molecular Weight: | 58897  |
| Gene ID:          | 9960   |

| NCBI Accession: | NP_001243631, NP_006528 |
|-----------------|-------------------------|
| UniProt:        | Q9Y6I4                  |

### **Application Details**

| Application Notes: | WB: 1:1000. IHC-P: 1:50~100 |
|--------------------|-----------------------------|
| Restrictions:      | For Research Use only       |

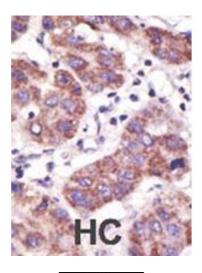

# Handling

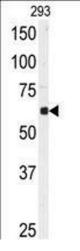

| Format:            | Liquid   |
|--------------------|--|
| Buffer:            | Purified polyclonal antibody supplied in PBS with 0.09 % (W/V) sodium azide.   |
| Preservative:      | Sodium azide   |
| Precaution of Use: | This product contains Sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only.                     |
| Storage:           | 4 °C,-20 °C  |
| Storage Comment:   | Maintain refrigerated at 2-8 °C for up to 6 months. For long term storage store at -20 °C in small aliquots to prevent freeze-thaw cycles. |

#### Images

#### Immunohistochemistry (Paraffin-embedded Sections)

**Image 1.** Formalin-fixed and paraffin-embedded human cancer tissue reacted with the primary antibody, which was peroxidase-conjugated to the secondary antibody, followed by DAB staining. This data demonstrates the use of this antibody for immunohistochemistry, clinical relevance has not been evaluated. BC = breast carcinoma, HC = hepatocarcinoma.

#### Western Blotting

**Image 2.** Western blot analysis of anti-USP3 Antibody (N-term) (ABIN388880 and ABIN2839173) in 293 cell line lysates ( $35 \mu g$ /lane). USP3 (arrow) was detected using the purified Pab.
