Datasheet for ABIN388921 anti-USP28 antibody (N-Term)

Image

Overview

Quantity:	400 μL
Target:	USP28
Binding Specificity:	AA 111-141, N-Term
Reactivity:	Human
Host:	Rabbit
Clonality:	Polyclonal
Conjugate:	This USP28 antibody is un-conjugated
Application:	Western Blotting (WB)

Product Details

Immunogen:	This USP28 antibody is generated from rabbits immunized with a KLH conjugated synthetic peptide between 111-141 amino acids from the N-terminal region of human USP28.
Clone:	RB4435
Isotype:	Ig Fraction
Purification:	This antibody is prepared by Saturated Ammonium Sulfate (SAS) precipitation followed by dialysis against PBS.

Target Details

Target:	USP28
Alternative Name:	USP28 (USP28 Products)

Target Details

Background:	Modification of target proteins by ubiquitin participates in a wide array of biological functions.
	Proteins destined for degradation or processing via the 26 S proteasome are coupled to
	multiple copies of ubiquitin. However, attachment of ubiquitin or ubiquitin-related molecules
	may also result in changes in subcellular distribution or modification of protein activity. An
	additional level of ubiquitin regulation, deubiquitination, is catalyzed by proteases called
	deubiquitinating enzymes, which fall into four distinct families. Ubiquitin C-terminal hydrolases,
	ubiquitin-specific processing proteases (USPs),1 OTU-domain ubiquitin-aldehyde-binding
	proteins, and Jab1/Pad1/MPN-domain-containing metallo-enzymes. Among these four
	families, USPs represent the most widespread and represented deubiquitinating enzymes
	across evolution. USPs tend to release ubiquitin from a conjugated protein. They display similar
	catalytic domains containing conserved Cys and His boxes but divergent N-terminal and
	occasionally C-terminal extensions, which are thought to function in substrate recognition,
	subcellular localization, and protein-protein interactions.
Molecular Weight:	122491

Gene ID:	57646
NCBI Accession:	NP_065937
UniProt:	Q96RU2

Application Details

Application Notes:	WB: 1:1000
Restrictions:	For Research Use only

Handling

Format:	Liquid
Buffer:	Purified polyclonal antibody supplied in PBS with 0.09 % (W/V) sodium azide.
Preservative:	Sodium azide
Precaution of Use:	This product contains Sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only.
Storage:	4 °C,-20 °C
Storage Comment:	Maintain refrigerated at 2-8 °C for up to 6 months. For long term storage store at -20 °C in small aliquots to prevent freeze-thaw cycles.
