Target:	Adenylate Kinase 5 (AK5)
Alternative Name:	AK5 (AK5 Products)
Background:	Protein kinases are enzymes that transfer a phosphate group from a phosphate donor,
	generally the g phosphate of ATP, onto an acceptor amino acid in a substrate protein. By this

regulating cellular metabolism, transcription, cell cycle progression, cytoskeletal rearrangement
and cell movement, apoptosis, and differentiation. With more than 500 gene products, the
protein kinase family is one of the largest families of proteins in eukaryotes. The family has
been classified in 8 major groups based on sequence comparison of their tyrosine (PTK) or
serine/threonine (STK) kinase catalytic domains. The AGC kinase group consists of 63 kinases
including the cyclic nucleotide-regulated protein kinase (PKA & PKG) family, the diacylglycerol-
activated/phospholipid-dependent protein kinase C (PKC) family, the related to PKA and PKC
(RAC/Akt) protein kinase family, the kinases that phosphorylate G protein-coupled receptors
family (ARK), and the kinases that phosphorylate ribosomal protein S6 family (RSK).

#### **Immunohistochemistry (Paraffin-embedded Sections)**

**Image 1.** Formalin-fixed and paraffin-embedded human brain tissue reacted with AK5 Antibody (N-term) (ABIN392733 and ABIN2842195), which was peroxidase-conjugated to the secondary antibody, followed by DAB staining. This data demonstrates the use of this antibody for immunohistochemistry, clinical relevance has not been evaluated.

#### **Western Blotting**

**Image 2.** The anti-AK5 Pab (ABIN392733 and ABIN2842195) is used in Western blot to detect AK5 in mouse liver tissue lysate.

#### **Immunohistochemistry (Paraffin-embedded Sections)**

**Image 3.** Formalin-fixed and paraffin-embedded human cancer tissue reacted with the primary antibody, which was peroxidase-conjugated to the secondary antibody, followed by AEC staining. This data demonstrates the use of this antibody for immunohistochemistry, clinical relevance has not been evaluated. BC = breast carcinoma, HC = hepatocarcinoma.
