Datasheet for ABIN457373 anti-ENPP3 antibody (PE)

2 Images

4 Publications

Overview

| Quantity: | 100 tests |
|--------------|--|
| Target: | ENPP3 |
| Reactivity: | Human |
| Host: | Mouse |
| Clonality: | Monoclonal |
| Conjugate: | This ENPP3 antibody is conjugated to PE |
| Application: | Flow Cytometry (FACS), Immunocytochemistry (ICC) |

Product Details

| Immunogen: | HEK-293 cells transfected with human CD203c |
|-----------------------------|--|
| Clone: | NP4D6 |
| Isotype: | lgG1 |
| Specificity: | The mouse monoclonal antibody NP4D6 reacts with an extracellular epitope of CD203c, a transmembrane ectoenzyme expressed on basophils and mast cells, and overexpressed upon their activation. |
| Cross-Reactivity (Details): | Human |
| Purification: | Purified antibody is conjugated with R-phycoerythrin (PE) under optimum conditions. Unconjugated antibody and free fluorochrome are removed by size-exclusion chromatography. |

Target Details

| Target: | ENPP3 |

| Target Details | |
|---------------------|--|
| Alternative Name: | CD203c (ENPP3 Products) |
| Background: | Ectonucleotide pyrophosphatase/phosphodiesterase 3,CD203c, also known as ENPP-3, is integral membrane ectoenzyme (ectonucleotide pyrophosphatase/phosphodiesterase 3), that hydrolyses nucleotide triphosphates and thus modulates purinergic signaling. CD203c is expressed mainly on activated basophils and mast cells. CD203c is upregulated in response to IgE-receptor cross-linking and is overexpressed on neoplastic mast cells in patients with systemic mastocytosis. Measurement of its induced enhancement on the plasma membrane is useful for diagnostics of allergies.,ENPP3, B10, PDNP3, PD-IBETA |
| Gene ID: | 5169 |
| UniProt: | 014638 |
| Pathways: | Regulation of Muscle Cell Differentiation, Negative Regulation of Transporter Activity |
| Application Details | |
| Application Notes: | Flow cytometry: The reagent is designed for analysis of human blood cells using 20 µL reagent / 100 µL of whole blood or 10 ⁶ cells in a suspension. The content of a vial (2 ml) is sufficient for 100 tests. Extracellular and intracellular staining. |
| Comment: | The purified antibody is conjugated with R-Phycoerythrin (PE) under optimum conditions. The conjugate is purified by size-exclusion chromatography and adjusted for direct use. No reconstitution is necessary. |
| Restrictions: | For Research Use only |
| Handling | |
| Reconstitution: | No reconstitution is necessary. |
| Buffer: | Stabilizing phosphate buffered saline (PBS), pH 7.4, 15 mM sodium azide |
| Preservative: | Sodium azide |
| Precaution of Use: | This product contains Sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only. |
| Handling Advice: | Do not freeze. Avoid prolonged exposure to light. |
| Storage: | 4 °C |
| Storage Comment: | Store at 2-8°C. Protect from prolonged exposure to light. Do not freeze. |
