EBV NA IgG ELISA Kit

[Go to Product page](#)

Overview

Quantity:	96 tests
Target:	EBV NA IgG
Reactivity:	Epstein-Barr Virus (EBV)
Method Type:	Sandwich ELISA
Application:	ELISA

Product Details

Sample Type:	Serum, Plasma
Analytical Method:	Quantitative
Detection Method:	Colorimetric
Specificity:	96.5 %
Sensitivity:	94.7 %

Target Details

Target:	EBV NA IgG
Abstract:	EBV NA IgG Products
Target Type:	Antibody

Application Details

Comment:	Origin of standards: human plasma/ serum
----------	--

Application Details

	Number of standards: 5
Plate:	Pre-coated
Restrictions:	For Research Use only
