## anti-OLIG1 antibody (AA 193-255)

[Go to Product page](#)

### 1 Image

#### Overview

|                      |                                      |
|----------------------|--------------------------------------|
| Quantity:            | 100 µL                               |
| Target:              | OLIG1                                |
| Binding Specificity: | AA 193-255                           |
| Reactivity:          | Human                                |
| Host:                | Rabbit                               |
| Clonality:           | Polyclonal                           |
| Conjugate:           | This OLIG1 antibody is un-conjugated |
| Application:         | Western Blotting (WB)                |

#### Product Details

|               |                                                                                                                                                              |
|---------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Immunogen:    | Synthetic peptide containing a sequence corresponding to a region within amino acids 193 and 255 of Human OLIG1.<br><br>Type of Immunogen: Synthetic peptide |
| Specificity:  | Human OLIG1. Predicted cross-reactivity based on amino acid sequence homology: pig (100 %).                                                                  |
| Purification: | Immunoaffinity purified                                                                                                                                      |

#### Target Details

|                   |                                          |
|-------------------|------------------------------------------|
| Target:           | OLIG1                                    |
| Alternative Name: | OLIG1 ( <a href="#">OLIG1 Products</a> ) |

## Target Details

|             |                                          |
|-------------|------------------------------------------|
| Background: | Name/Gene ID: OLIG1                      |
|             | Synonyms: OLIG1, BHLHB6, BHLHE21, Oligo1 |
| Gene ID:    | 116448                                   |
| UniProt:    | <a href="#">Q8TAK6</a>                   |

## Application Details

|                    |                                   |
|--------------------|-----------------------------------|
| Application Notes: | Approved: WB (1:500 - 1:3000)     |
|                    | Not recommended for: IHC-P        |
| Comment:           | Target Species of Antibody: Human |
| Restrictions:      | For Research Use only             |

## Handling

|                    |                                                                                                                                    |
|--------------------|------------------------------------------------------------------------------------------------------------------------------------|
| Format:            | Liquid                                                                                                                             |
| Concentration:     | Lot specific                                                                                                                       |
| Buffer:            | PBS, pH 7, 10 % Glycerol, 0.01 % Thimerosal                                                                                        |
| Preservative:      | Thimerosal (Merthiolate)                                                                                                           |
| Precaution of Use: | This product contains Thimerosal (Merthiolate): a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only. |
| Handling Advice:   | Minimize freezing and thawing.                                                                                                     |
| Storage:           | -20 °C                                                                                                                             |
| Storage Comment:   | Aliquot and store at -20°C. Avoid freeze-thaw cycles.                                                                              |
