

## Datasheet for ABIN470815 **anti-TCEB1 antibody**

[Go to Product page](#)

### Overview

|              |                                      |
|--------------|--------------------------------------|
| Quantity:    | 1 mg                                 |
| Target:      | TCEB1                                |
| Reactivity:  | Human                                |
| Host:        | Chicken                              |
| Clonality:   | Polyclonal                           |
| Conjugate:   | This TCEB1 antibody is un-conjugated |
| Application: | ELISA                                |

### Product Details

|               |                                       |
|---------------|---------------------------------------|
| Immunogen:    | Human elongin C (GST-elongin C).      |
|               | Type of Immunogen: GST fusion protein |
| Isotype:      | IgY                                   |
| Specificity:  | Recognizes Elongin C.                 |
| Purification: | Purified                              |

### Target Details

|                   |                                                 |
|-------------------|-------------------------------------------------|
| Target:           | TCEB1                                           |
| Alternative Name: | SIII / TCEB1 ( <a href="#">TCEB1 Products</a> ) |
| Background:       | Name/Gene ID: TCEB1                             |

Target Details

|           |                                                                          |
|-----------|--------------------------------------------------------------------------|
|           | Synonyms: TCEB1, Elongin 15 kDa subunit, EloC, SIII, SIII p15, Elongin-C |
| Gene ID:  | 6921                                                                     |
| UniProt:  | <a href="#">Q15369</a>                                                   |
| Pathways: | <a href="#">SARS-CoV-2 Protein Interactome</a>                           |

Application Details

|                    |                                               |
|--------------------|-----------------------------------------------|
| Application Notes: | Approved: ELISA                               |
|                    | Usage: Suitable for use in tumor suppression. |
| Comment:           | Target Species of Antibody: Human             |
| Restrictions:      | For Research Use only                         |

Handling

|                    |                                                                                                                        |
|--------------------|------------------------------------------------------------------------------------------------------------------------|
| Format:            | Liquid                                                                                                                 |
| Concentration:     | Lot specific                                                                                                           |
| Buffer:            | Tris buffer, sodium azide, 40 % glycerol.                                                                              |
| Preservative:      | Sodium azide                                                                                                           |
| Precaution of Use: | This product contains Sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only. |
| Handling Advice:   | Avoid repeat freeze-thaw cycles.                                                                                       |
| Storage:           | 4 °C,-20 °C                                                                                                            |
| Storage Comment:   | Short term: 4°C. Long term: Store at -20°C. Avoid freeze-thaw cycles.                                                  |
