## Overview

|                      |                                    |
|----------------------|------------------------------------|
| Quantity:            | 1 mg                               |
| Target:              | FPA                                |
| Binding Specificity: | AA 1-16                            |
| Reactivity:          | Human                              |
| Host:                | Sheep                              |
| Clonality:           | Polyclonal                         |
| Conjugate:           | This FPA antibody is un-conjugated |
| Application:         | ELISA                              |

## Product Details

|               |                                                                                                                                  |
|---------------|----------------------------------------------------------------------------------------------------------------------------------|
| Immunogen:    | Synthetic fibrinopeptide Aa1-16 conjugated to carrier.<br><br>Type of Immunogen: Synthetic peptide                               |
| Isotype:      | IgG                                                                                                                              |
| Specificity:  | Specific for FPA when analyzed by ELISA. No reaction was observed with normal human plasma when tested by immunoelectrophoresis. |
| Purification: | Ammonium sulfate precipitation                                                                                                   |

## Target Details

|           |                              |
|-----------|------------------------------|
| Target:   | FPA                          |
| Abstract: | <a href="#">FPA Products</a> |

Application Details

|                    |                                   |
|--------------------|-----------------------------------|
| Application Notes: | Approved: ELISA                   |
|                    | Usage: Suitable for use in ELISA. |
| Comment:           | Target Species of Antibody: Human |
| Restrictions:      | For Research Use only             |

Handling

|                  |                                                                       |
|------------------|-----------------------------------------------------------------------|
| Format:          | Liquid                                                                |
| Concentration:   | Lot specific                                                          |
| Buffer:          | 0.01 M HEPES, pH 7.4, 0.15 M sodium chloride, 50 % glycerol.          |
| Storage:         | 4 °C,-20 °C                                                           |
| Storage Comment: | Short term: 4°C. Long term: Store at -20°C. Avoid freeze-thaw cycles. |
