## Datasheet for ABIN478362 **anti-SCXA antibody (N-Term)**

### Overview

|                      |                                     |
|----------------------|-------------------------------------|
| Quantity:            | 0.1 mg                              |
| Target:              | SCXA                                |
| Binding Specificity: | N-Term                              |
| Reactivity:          | Human, Mouse                        |
| Host:                | Rabbit                              |
| Clonality:           | Polyclonal                          |
| Conjugate:           | This SCXA antibody is un-conjugated |
| Application:         | Western Blotting (WB), ELISA        |

### Product Details

|               |   |
|---------------|---|
| Immunogen:    | Synthetic peptide from human Scleraxis (SCX).<br><br>Type of Immunogen: Synthetic peptide                   |
| Specificity:  | Synthetic peptide corresponding to N-terminal residues of human SCX (human class II bHLH protein scleraxis) |
| Purification: | Immunoaffinity purified   |

### Target Details

|                   |                                       |
|-------------------|---------------------------------------|
| Target:           | SCXA                                  |
| Alternative Name: | SCX ( <a href="#">SCXA Products</a> ) |
| Background:       | Name/Gene ID: SCX                     |

## Target Details

---

Synonyms: SCX, BHLHa48, BHLHA41, SCXB, Scleraxis homolog B (mouse)

Gene ID: 642658

## Application Details

---

Application Notes: Optimal working dilution should be determined by the investigator.

Comment: Target Species of Antibody: Human

Restrictions: For Research Use only

## Handling

---

Format: Liquid

Concentration: Lot specific

Buffer: PBS, 0.01 % sodium azide, 50 % glycerol.

Preservative: Sodium azide

Precaution of Use: This product contains Sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only.

Handling Advice: avoid freeze thaw cycles. Store undiluted.

Storage: 4 °C, -20 °C

Storage Comment: Short term 4°C, long term aliquot and store at -20°C, avoid freeze-thaw cycles. Store undiluted.
