Datasheet for ABIN479373  
**anti-Morphine-3 antibody**

### Overview

Quantity:	1 mL
Target:	Morphine-3
Reactivity:	Please inquire
Host:	Goat
Clonality:	Polyclonal
Conjugate:	This Morphine-3 antibody is un-conjugated
Application:	Radioimmunoassay (RIA)

### Product Details

Immunogen:	3-carboxymethyl-Morphine-BSA. Type of Immunogen: Hapten
Isotype:	IgG
Specificity:	Recognizes Morphine-3:100 % . Cross-reactivity: Codeine: 100 %, Naloxone 0.1 %, Methadone 0.01 %.
Purification:	Delipidated and defibrinated

### Target Details

Target:	Morphine-3
Abstract:	<a href="#">Morphine-3 Products</a>
Target Type:	Chemical

## Application Details

---

Application Notes: Approved: RIA (1:100000 - 1:500000)

Usage: Suitable for use in RIA. 3H RIA: 1:100000-1:500000.

---

Restrictions: For Research Use only

## Handling

---

Format: Liquid

Concentration: Lot specific

Buffer: No preservatives added.

Preservative: Without preservative
