

Datasheet for ABIN480424

anti-Testosterone 11, beta-Hydroxy antibody[Go to Product page](#)

Overview

Quantity:	1000 tests
Target:	Testosterone 11, beta-Hydroxy
Reactivity:	Hormone
Host:	Sheep
Clonality:	Polyclonal
Conjugate:	Un-conjugated
Application:	Radioimmunoassay (RIA), ELISA

Product Details

Immunogen:	11-beta-Hydroxytestosterone.
Isotype:	IgG
Specificity:	Typical specificity: 11-b-Hydroxytestosterone: 100%, Estradiol: 0.0001%, Testosterone: 4.70 %, Progesterone 0.0001%, 11-beta-Hydroxy Androstenedione: 2.0%, Cortisol: 0.0001%, 11-Ketotestosterone: 1.4%, Corticosterone: 0.0001%.
Purification:	Delipidation and Defibrination

Target Details

Target:	Testosterone 11, beta-Hydroxy
Target Type:	Hormone

Application Details

Application Notes:	ELISA, RIA
Restrictions:	For Research Use only

Handling

Format:	Liquid
Buffer:	Neat serum.
