Datasheet for ABIN4888996  
**anti-ADMA antibody**

### Overview

Quantity:	100 µg
Target:	ADMA
Reactivity:	Please inquire
Host:	Mouse
Clonality:	Monoclonal
Conjugate:	This ADMA antibody is un-conjugated
Application:	Western Blotting (WB), Immunohistochemistry (IHC), ELISA, Chromatin Immunoprecipitation (ChIP)

### Product Details

Immunogen:	Dimethyl-L-Arginine
Clone:	21C7
Isotype:	IgM kappa
Specificity:	Reacts with free and bound asymmetric dimethyl arginine (ADMA)
Cross-Reactivity (Details):	No cross reaction with free or bound Arginine or NG - Monomethyl Arginine Ability to fix complement : unknown
Purification:	Purified

### Target Details

Target:	ADMA
---------	------

## Target Details

---

Alternative Name:	Asymmetric Dimethyl Arginine, ADMA ( <a href="#">ADMA Products</a> )
Target Type:	Amino Acid
Background:	ADMA is found in blood and is derived from post-translationally modified proteins.

## Application Details

---

Application Notes:	Working dilution: Optimal dilution should be determined by the end user. The following are guidelines only : IHC (1:100 - 1:10000) WB (1:500 - 1:5000)
Restrictions:	For Research Use only

## Handling

---

Format:	Lyophilized
Reconstitution:	Must be reconstituted in distilled water.
Concentration:	1 mg/mL
Buffer:	Tris 0,1M, glycine 0,1M, sucrose 2 %
Storage:	4 °C,-20 °C
Storage Comment:	Lyophilized powder stable for a minimum of 2 years at -20°C. Store reconstituted antibodies at +4°C. For extended periods store in aliquots at -20°C. Antibodies are guaranteed for 6 month from date of receipt.
Expiry Date:	24 months
